

**BELIEVE BIG EFFORT
IS ABOUT TO COMMENCE****SIGNS OF INCREASING ACTIVITY ARE
NOTED IN AEGEAN AND NORTH SEAS**

Germans Claim to Have Sunk British Submarines in the Bight of Helgoland—British Stops All Steamboat Communication With Holland.

London, April 22.—(9:45 p. m.)—Glowing accounts of the strength and condition of the British army and of the great increase in the output of munitions which it is expected will, next month amount to 25 times to what it was last September, given by David Lloyd George, chancellor of the exchequer, and Harold J. Tennant, parliamentary secretary of the war office, in the house of commons, have increased the enthusiasm and confidence of the people of England in the war which they and their allies are waging on the continents of Europe, Asia and Africa.

Says Recruiting Is Satisfactory. Supplementing the statement of the chancellor that Great Britain has more than 36 divisions of troops on the continent and that the output of munitions has been enormously increased, Mr. Tennant today, speaking on behalf of the secretary for war Lord Kitchener, declared that recruiting had been most satisfactory and gratifying, that the health of the troops was splendid and that the wounded were in the London hospitals 24 hours after they were stricken in France. He wished to impress upon the country the necessity of increasing the supplies of artillery ammunition adding: "There is no limit to the amount required."

The frankness of the cabinet ministers in making known the number of men at the front and the reports that reach London from various sources have convinced the people that at last the big effort against Germany and Turkey is about to commence. Both in the Aegean and North seas there are signs of increasing activity.

Stops Steamboat Communication. From today all steamboat communication with Holland is stopped by order of the British government. Taken in connection with the news from Berlin that British submarines have been in the Bight of Helgoland, where the German admiralty lays claim to having sunk one and perhaps more, is believed to foreshadow some movement in the North sea, while there is no longer any endeavor to hide the fact that a big Anglo-French force is prepared to go as General D'Amade the French commander has said "to any point where it is required."

A German report says that part of this force, which is under command of General Sir Ian Hamilton, has been landed at Enos, a Turkish town near the Turco-Bulgarian border on the northern side of the Gulf of Saros, under the support of the allied fleet. At the same time there is news of transports loaded with troops passing the Island of Lemnos not far from the entrance of the Dardanelles and of others being sighted off Smyrna, on the coast of Asia Minor.

This makes it certain where the blow is to be struck. There are Anglo-French troops in the Aegean sea, including Sengalese, who were transferred from France, and British "Tommy's" from the outposts of the empire, which, with the disappearance of the last German raiders, are considered safe from attack.

British Told To Halt 60. Further east in Mesopotamia, the Turkish army which was sent to bar the British advance from the head of the Persian gulf after having suffered 6,000 casualties in full retreat, harassed not only by the British but by Arab tribesmen whom they had enlisted on their side and who, now that the Turks have been defeated, have turned against them. Nearer home, the British are holding tenaciously to Hill 60 near Ypres, which they captured from the Germans on Saturday and which the Germans have ever since been trying to retake.

The Russians for their part, are, according to their accounts repulsing repeated Austrian attacks on their positions to the southeast of Lupkow Pass in the Carpathians, and are holding their own against the Austro-German efforts on their flanks near Gorlice in western Galicia and Stry, in the eastern part of the same province. These attacks apparently are being made with the object of holding the Russians where they are while the Germans are preparing to strike at the Russian lines at some other point, possibly from the direction of Cracow.

Although rumors are many and divergent no definite news has been received of Italy's intentions. While despatches indicate that the tension between Rome and Vienna has slackened the belief is general that before many weeks Italy and some of the Balkan states will assume a more definite attitude.

**STATE MRS. BURKHAM IS
NOT CAMPBELL'S CHILD**

St. Louis, April 22.—Testimony that Mrs. Lois Campbell Burkham, legatee of half the \$16,000,000 estate left by the late James Campbell, millionaire traction magnate, is the daughter of Mrs. Anna Elizabeth Hicks and is not Campbell's child, was given in the circuit court here today by Mrs. Edith Blair of St. Louis, stepmother of Mrs. Hicks. Relatives of the late millionaire are endeavoring to establish among other things, that Mrs. Burkham has no right to a share in the estate.

**DISCLOSE PLOT TO KIDNAP THAW
FROM NEW YORK AUTHORITIES**

Scheme is Frustrated by Man Who Was Offered \$1,000 to Seize Thaw But Refused Because the Money Was not Forthcoming.

New York, April 23.—Another plan to kidnap Harry Kendall Thaw from the authorities of New York state by bundling him into an automobile was disclosed by an investigation made in Norfolk, Va. by an agent of Sheriff Griffiths of New York according to a despatch today from Norfolk to the Tribune.

The scheme was frustrated, says the despatch, through a letter written to Frederick J. Groehl, assistant district attorney here, by a former resident of this city who said he was offered \$1,000 to seize Thaw but refused because the money was not forthcoming.

The attempt to kidnap Thaw and get him outside the state, preferably to Virginia, via New Jersey was to be made, the despatch says during the hearing of Thaw's case in this city today. The man who gave the authorities the information regarding the alleged plot said he was approached by a New York private detective and asked to supply the automobile, a chauffeur and another man who was to be the outside man while the detective agreed to look after four men who were to seize Thaw and get him to the car. Thaw ostensibly was to be taken to New Hampshire, but the authorities' informant said he was convinced Virginia was the real destination intended. Inquiries made of him about the sanity laws of that state led him to this belief he said.

**CHARGE DEPUTY SHERIFF AND
RANGER WITH HANGING MEN**

Hanging Occurs Near an Isolated Settlement in the Santa Rita Mountains—Officers Were Searching For Man Wanted on Charge of Kidnapping.

Tucson, Ariz., April 22.—Frank Moore, a deputy sheriff, and Robert Fenter, a county ranger, are in the county jail charged with murder for having hanged the Leon brothers, alleged bandits, while administering a "third degree" instead of shooting them in battle, as reported two days ago. The hanging occurred in Lonely Gulch, near Greaterville, an isolated settlement in the Santa Rita Mountains, where the officers were searching for a man charged with having spirited away a woman. Juan Leon, one of the brothers, died on the rope. Jose Maria Leon is at the point of death from the effects of strangulation. The third brother, Francisco, was left for dead but released himself while his toes just touched the ground and is supposed to have wandered away in the mountains and died.

**ARBITRATION IN CHICAGO STRIKE
IS EXPECTED TO BEGIN TODAY**

CHICAGO, April 22.—Arbitration between the carpenter contractors association and the 16,000 members of the "carpenters' union" who have been locked out more than a week is expected to begin tomorrow. It was announced tonight that upon the request of Simon O'Donnell, president of the Building Trades council the contractors had agreed to meet yesterday men to accept mediation by the state board of arbitration. Neither side would admit having any proposals to submit but the first meetings, according to O'Donnell are to determine whether there is any change in conditions sufficient to warrant further conferences.

**GIVES NAMES OF
PARISIANS KILLED.**

Paris, April 22.—(5:45 p. m.)—Tout Paris, a social register of the French capital, just issued, contains the names of 1,500 Parisians killed on the battlefield up to February 25th, 1915.

RIVERS DEFEATS BURNS.

Kansas City, Mo., April 22.—Joe Rivers of Los Angeles won a decision in a hot, fast ten round bout with Frankie Burns of Oakland, California here tonight. Rivers finished strong.

LARGE TRADE BALANCE.

Washington, April 22.—Excess of American exports over imports in March this year was \$140,969,347—the largest favorable trade balance for March in the history of American commerce. Exports for the month were \$299,009,563 and imports \$158,040,216.

RELAY RACES BEGIN TODAY.

Philadelphia, April 22.—School and college athletes from every section of the country and including world record holders in many events are in this city for the 21st annual relay championships at the University of Pennsylvania tomorrow and Saturday.

**ACCEPT DR. PATTEN'S
RESIGNATION.**

San Francisco, April 22.—The resignation of Dr. John A. Patten, a proprietary manufacturer, chairman of the book committee of the Methodist book concern was accepted here today by the committee at its annual meeting. Rev. W. E. Canner of Pittsburgh was named in his stead.

THIRTEEN MISSING IN FLOOD.

Austin, Texas, April 22.—Late tonight authorities announced that thirteen persons were missing as a result of a flood.

**BEGINS WHOLESALE
SLAUGHTER OF BILLS****TEN HOUSE MEASURES ARE KILLED
BY THE SHELVEING ROUTE**

Action is Taken at the Recommendation of Committees—House Refuses to Concur in Senate Amendments to Foot and Mouth Bill.

Springfield, Ill., April 22.—Wholesale slaughter of pending legislation was begun by the house today. Ten bills, one the Gorman measure providing for an eight hour workday for state employees, were killed by the shelving route at the recommendation of committees. Other measures tabled were:

Providing for appointment by the governor of a superintendent of public printing who would have charge of all of the state's printing and binding.

Requiring owners of land to keep public highways clear of weeds and brush.

Prohibiting the maintenance of classes in high schools, state normal schools or the state university which has less than five scholars.

Repealing entire civil service act.

Providing for the inspection of railroad crossings by highway commissioners.

Prohibiting removal of civil service employees until the end of their term of four years, except upon sustained serious charges.

Enabling cities to abolish park districts, park lands to revert to the control of municipal authorities.

Providing for the election instead of appointment of members of the state board of agriculture.

Will Experience Further Delay.

Farmers and stock raisers, who suffered loss through the slaughter of their cattle in an effort to eradicate foot and mouth disease, will experience a further delay in receiving their money because of the action of the house today in refusing to concur in senate amendments to the foot and mouth bill which carries an appropriation of nearly one million dollars. The senate added two claims to the bill which had not been certified by the state board of livestock commissioners. The house members say they will refuse to endorse the measure until the two claims are eliminated.

Senate Adjourns 'Til Tuesday.

The senate today adjourned with the understanding that no business shall be transacted until next Tuesday morning. Beginning next week it will hold two sessions a day. The house expects to adjourn tomorrow until next Monday evening. The house today adopted the senate joint resolution providing for a commission of four members to be appointed by the governor to investigate a proposal for the pensioning of superannuated state employees, their widows and their children. In opposition to the bill adding additional circuit court judges to all down state judicial districts, Representative Devine today introduced a resolution in the house calling on the legislative reference bureau to have the circuit court judges comply with the law and report as to the number of days on which they hold court. The resolution was referred to the judicial practice committee.

Representative Thomas Curran offered a resolution providing for a continuation of the home finding commission appointed by the last general assembly to investigate maternity hospitals and charitable institutions. The former commission recently wound up its work by making a final report and by submitting five bills dealing with such institutions. The Tossy resolution creating a commission on unemployment was made a special order of business in the senate for next Tuesday. The resolution was amended today to provide \$10 a day salary for the members for the time actually spent in work.

Senator Broderick introduced a measure making it a misdemeanor to sell liquor to habitual drunkards after a written order from parents or relatives.

To Hold Hearing in Chicago.

Manufacturers of Chicago and other Illinois cities will be given an opportunity to speak for or against the administration's waterway bill at a meeting of the sub-committee of representatives and senators to be held at 10 o'clock Saturday morning in Chicago.

**EIGHT BODIES ARE TAKEN
FROM RUINS OF TWO STORES**

BIRMINGHAM, Ala., April 22.—Eight bodies had been taken tonight from the ruins of the two retail stores wrecked here yesterday when a windstorm blew down a brick wall left standing by a recent fire. Rescuers who had toiled all day continued to search for three persons missing since the collapse of the building. Most of the twenty persons injured were reported doing well tonight.

City authorities will start an investigation Saturday to fix blame for the accident. It is said the wall had been inspected and pronounced safe.

**FRANCE TO CARE
FOR WAR ORPHANS.**

Paris, April 22.—(5:10 p. m.)—It was decided today by the cabinet that children made orphans by the death of their fathers in the war should be cared for by the state.

War News Summarized

Impending operations in the North Sea are thought to be foreshadowed by the incursion of British submarines in Helgoland Bay and the embargo on all shipping between England and Holland.

During the past week the activity of the German submarines has decreased to a marked degree and incidentally British submarines, of which nothing had been heard for months, have put in an appearance and apparently are operating along the German coast and around Helgoland.

The German admiralty's report announcing these operations say that one of the British underwater craft was sunk on April 17th. Whatever the intention of the government, the British people are convinced that important naval events are likely to occur within a comparatively brief period.

The campaign on land has supplied no engagements that affect the situation. In Alsace the French continue to push forward along the Fecht river in the direction of Colmar.

In Belgium the British and Germans are fighting savagely for the important strategic point near Ypres known as Hill 60, which the British captured some days ago with heavy losses to both sides.

In the eastern zone the two armies in the Carpathians are engaged at various points along the front in determined efforts to better their conditions, notwithstanding the difficulties of the ground and while the Russians lay claim to having repulsed many Austrian attacks, the Austrian war office reports successful counter attacks by the Austrian infantry around Uzsok Pass, in which many Russians were killed and 1,200 were captured.

An intermittent bombardment of the Dardanelles is being carried on by the allied warships, while at the same time transports loaded with troops are on the seas or have already reached their destination preparatory to the inauguration of operations by land against Turkey.

**WILL PERMIT SALE OF WABASH
RAILROAD FOR \$21,000,000**

Judge Adams Signs an Order Authorizing the Sale—Action is Taken at Request of Eastern Stockholders.

St. Louis, April 22.—The sale of the Wabash railroad for \$21,000,000 instead of for \$24,000,000, the minimum fixed in the foreclosure decree will be permitted by the federal district court, the receivers were informed today by Circuit Judge Adams. Sixteen million dollars will be required to take up outstanding receivers certificates and \$5,000,000 to liquidate the costs of the receivership.

Judge Adams signed an order authorizing the sale of the road for \$21,000,000.

This action was taken at the request of attorneys representing eastern stockholders.

Edward C. Eliot, counsel for the National Bank of Commerce, New York, intimated that it might be possible to obtain \$24,000,000 for the road, Mr. Eliot said that though the minimum of \$24,000,000 previously fixed by the court was only forty cents on each dollar of bonded indebtedness the market value of the bonds was less than 25 cents on the dollar.

Judge Adams said he hoped the receivership would be ended by June 15th. Lawrence Greer, counsel for the Equitable Trust company, New York, said the re-organization plans were progressing satisfactorily.

**COMPLETE JURY TO TRY LAWSON ON
CHARGE OF MURDERING GUARD**

Opening Statements Are to be Made Today and Taking of Testimony Will Probably Begin.

Trinidad, Colo., April 22.—With the jury completed, the trial of John R. Lawson, international executive board member of the United Mine Workers of America charged with murder in one of the battles of the recent strike of coal miners was adjourned late today. Tomorrow opening statements are to be made and the taking of testimony probably will begin. The jury consists of J. O. Rosebrough, farmer; E. M. Forbes, farmer; Grover Hall, omnibus driver; T. P. Brown, liveryman; Lloyd Bloom, ranch employee; B. F. Patterson, garage owner; Homer Canterbury, farmer; William Orth, garage owner; John Richards, broncho buster; W. W. Wilson, traveling salesman; C. Spurgeon Herring, garage employee; Miner Duggan, farmer.

Lawson is charged with the murder of John Nimmo, a mine guard who was killed in a strikers' battle near Ludlow on October 25th, 1913, shortly before the state militia was ordered into the Southern Colorado strike district.

BODY IS RECOVERED.

Decatur, Ill., April 22.—The body of W. E. Graham, who was burned to death in the Decatur hotel fire early Wednesday morning was recovered this afternoon. The body was identified by officers of the Decatur Bridge Works for whom he was an engineer. Gold and silver fillings in his teeth were the means of identification.

**PLANS FOR BATTLE
PROCEEDING RAPIDLY****VILLA'S CHIEF DIFFICULTY IS HIS
LACK OF AMMUNITION**

Indications Are That He Intends to Concentrate All His Forces in Central Mexico—Carranza Troops Capture Arizpe.

Washington, April 22.—Consular dispatches received by the Washington government from various points in Mexico indicate that while temporarily disorganized by the defeat sustained at Celaya, General Villa and his forces have by no means been removed as a formal factor in Mexico.

Officers at the state department are guarding closely reports received from consuls in Mexico, but it is known that plans for another battle with General Obregon, the Carranza commander, are proceeding rapidly.

Villa's chief difficulty, it was learned officially, is his lack of ammunition and until he replenishes his supply he probably will not risk another engagement. When he met Obregon at Celaya, Villa had sent forces to attack Matamoros, Nuevo Laredo, Tampico and west coast towns, greatly depleting his main force. Indications now are that he intends to concentrate all these forces in central Mexico for another supreme effort against Obregon.

Carranza Troops Well Supplied.

The Carranza forces are reported to be well supplied with ammunition and pressing Villa's army closely north of Irapuato. Carranza officials here claim the Villa movement has been given a crushing from which it never will recover. In the meantime many rumors of counter revolutionary movements have been current, though they are not credited by the American government.

Many former sympathizers of Huerta have been in Washington but most of them deny that Huerta intends to take the field again. Manuel Calero, former ambassador to Washington under the Madero administration, visited the Argentine and Chilean ambassadors today discussing the Mexican situation in general. It is said his visit was without significance.

Capture Prosperous Town.

Douglas, Ariz., April 22.—Carranza forces have struck into the heart of Northern Sonora district controlled by Gov. Jose Maytorena, a Villa partisan, by capturing Arizpe, a prosperous mining and farming center one hundred miles south of here according to official messages received at Agua Prieta. The Villa forces are reported to have withdrawn to the south without resistance.

**YOUNG QUINCY LABORER SHOTS
MOTHER-IN-LAW AND KILLS SELF**

Becomes Enraged at Her Refusal to Allow Him to See His Six Weeks Old Infant.

Quincy, Ill., April 22.—Standard McHugh, a laborer, 21 years of age, today ended his life by sending a bullet crashing through his brain, after he had shot and seriously wounded his mother-in-law, Mrs. Mary Church, when he became enraged at her refusal to allow him to see his six weeks old infant.

McHugh's wife, who is but fifteen years of age, had left him and a few days ago had gone to live with her mother, when she alleged her husband could not support her and their child.

McHugh called at the Church home this morning and asked to see the child. When his request was refused he left the place, procured a revolver, and returning entered the house without being observed and shot his mother-in-law as she stood talking to a neighbor in an airy near the house. After firing one shot, he rushed for the house, ran up the steps to the flat, occupied by his wife and child and there turned the gun on himself. The two were rushed to a hospital where McHugh died two hours later. The woman probably will recover. The bullet which wounded her was deflected by striking a rib or could have caused instantaneous death.

**ROBERTS CONTINUES TO ACT
AS MAYOR OF TERRE HAUTE**

LEAVENWORTH, Kans., April 22.—Mayor Donn M. Roberts of Terre Haute, Ind., serving a six year term in the federal prison here is continuing to exercise the functions of mayor of his home city. He today sent telegrams to Terre Haute regarding the appointment of policemen. It is said that he has ordered the force to be cut down and that he will send on a plan by letter to reduce city expenses.

None of the other Terre Haute officials serving prison terms here are attempting to run their offices. Roberts says that he will not resign as mayor under any circumstances.

THE RAINFALL.

Twenty-nine hundredths of an inch is the rainfall reported yesterday by G. H. Hall of Alexander, U. S. Weather observer. A heavy shower fell in the morning and just after noon there followed another down-pour.

**K. P. ORDER SHOWS GOOD GAINS
AT CLOSE OF WINTER SEASON**

Six Take Rank of Knight at Regular Meeting of Favorite Lodge No. 376 Knights of Pythias Thursday Night.

Five candidates took the rank of Knight and one the rank of Esquire and Knight last evening at the regular meeting of Favorite lodge No. 376, Knights of Pythias, making a fitting close of work for the winter and spring season, and bringing the present membership to 312. For Favorite lodge the past few months have been profitable ones, with steady increase in membership and financial condition very satisfactory. Things social and fraternal have not been put to the background, as was well shown last night by the pleasing luncheon by which the degree work was followed.

In the class last evening Earl Spink took the second and third degrees and the rank of Knight was conferred upon five others, Charles P. Holbrook, Glen Skinner, Ivan W. Hawk, Thomas P. Chumley and John D. Thompson. The luncheon was served in charge of Charles Rataichak and Jewell E. Scott, financial secretary of the lodge. Presiding at the meeting was Gilbert L. Masters, Chancellor Commander of No. 376, and now serving his second term.

**LIGHTNING DESTROYS BARN
AND KILLS TWO HORSES**

Storm Plays Havoc on the Premises of Robert Baptist Northwest of the City.

Lightning destroyed the barn on the farm of Robert Baptist, six miles northwest of Jacksonville Thursday morning at 6:30 and also killed outright three horses in the barn and stunned a third. The lightning struck the structure in the gable and was first noticed by Mr. Baptist, who summoned his neighbors.

There were six horses in the barn all told and they were gotten out before the building was completely gone. There was \$200 worth of hay and feed consumed. The barn was 26 feet by 30 feet and had not been built long. It was valued at \$1,000, with insurance of \$400. One of the horses killed was valued at \$250. The insurance was not sufficient on the horses to cover their loss.

**BAD ROADS INTERFERE WITH
"GOOD ROADS DAY" PROGRAM**

MOUNT VERNON, Ill., April 22.—Bad roads today interfered with the "Good Roads Day" program of Governor Dunne of Illinois. The governor and a large party of state and federal officials left East St. Louis this morning to make the trip to Mount Vernon in automobiles.

An all night rain which preceded him had wrought havoc with the roads and at Zenia, Clay county, the governor was forced to change his plans. He sent Lieut. Gov. O'Hara and a few members of the party to complete the trip alone. The good roads party traveled over the Lincoln trail. Governor Dunne and other officials made addresses at Traction, Breeze and Carlyle and were greeted by large crowds at each place. Wherever they stopped the school children were given a holiday to welcome them.

**STATES SEVEN MILLION POLES
ARE IN DIRE NEED OF FOOD**

LONDON, April 22.—(8 p. m.)—Seven million Poles, of whom two million are Jews, are in dire need of food. This statement was made today by Herman Landau, a prominent Jewish philanthropist associated with various Jewish charities in London. "Of these sufferers 5,500,000 are east of the Vistula river and 1,500,000 west of the river," Mr. Landau said. "The Jews are even poorer than the gentiles because of the boycott against the Jews in parts of Poland before the beginning of the war which impoverished thousands who otherwise would have been able to provide for their families."

POSTOFFICE ROBBERS ESCAPE.

Duquoin, Ill., April 22.—Robbers who dynamited the postoffice safe escaped today after a pitched battle with the police in Main street in which a fusillade of shots was fired, apparently without effect. The thieves got \$3,100 in stamps and \$900 in money.

**WEATHER FORECAST
AND TEMPERATURES.**

WASHINGTON, April 22.—Illinois: Partly cloudy, probably local thundershowers Friday and Saturday.

Temperatures.

The current, maximum and minimum temperatures recorded Thursday were:

Jacksonville	64	73	58
Boston	50	64	40
Buffalo	50	66	46
New York	46	54	44
New Orleans	72	82	68
Chicago	72	75	52
Detroit	64	68	48
Omaha	76	78	56
St. Paul	74	76	52
Helena	42	44	32
San Francisco	52	60	48
Winnipeg	42	48	45

SAXOPHONES PLEASE MANY.

The Saxo sextette appeared to excellent advantage last evening at the Grand Opera house. Their instruments seemed to harmonize perfectly and each member of the large audience was pleased thoroughly with the novel music and its pleasing rhythmic intervals. Music lovers rank the sextette as among the best attractions of recent weeks.

**ROOSEVELT ADMITS
TALKING WITH "BOSSSES"****DISCUSSES WITH THEM QUESTION OF
SECURING NOMINATION**

Colonel Spends Five Strenuous Hours Under Cross-examination in Supreme Court—Causes Roars of Laughter.

Syracuse, N. Y., April 22.—Theodore Roosevelt, former president of the United States, spent five strenuous hours under cross-examination in the supreme court here today. He admitted without any hesitation that he had, verbally and in writing, discussed with "bosses" the question of securing the nomination for governor of the state of New York.

Identifies Letter.

He wrote it as being his, a letter he identified as being his, a letter he wrote to L. E. Quigg of New York, a Republican leader, and now a delegate to the state constitutional convention, in which he acquiesced in Quigg's assurance, to Former United States Senator Thomas C. Platt, that he would, in the event of his election, respect the senator's position as head of the Republican party and would consult with him freely and fully on all important matters.

He testified that he did confer with Mr. Platt, the so-called easy "boss". But, he added, he did so with regard to the interests of the party with a genuine desire to keep the Republican party together and minimize the centrifugal influences within that party and prevent it from flying asunder.

Causes Roars of Laughter.

The Colonel stepped from the stand at the end of the day amid roars of laughter he had caused. He had been answering questions and, incidentally, asking a few of the attorneys cross-examining him about Mr. Platt's opposition to a bill in the New York legislature providing for a tax upon franchises. The witness told how he had finally secured the passage of the bill against the wishes of Mr. Platt and other leaders of the Republican organization. Then he was asked whether upon the final passage of the bill, which caused the break between himself and Senator Platt, he had sent to the senator in Washington a telegram containing nothing but the two words "three cheers".

"I don't remember the telegram," the colonel solemnly replied. Then he made a grim face, smiled, slapped his thigh with his open hand and added: "But it is characteristic."

Roosevelt Questions Ivins.

On several occasions Colonel Roosevelt was more cross-examiner than cross-examined. His eyes sparkling behind his glasses, he would snap out a monosyllable as an answer to a question put to him and then proceed to make a statement upon his own account and finally conclude with a query to William Ivins, chief counsel for William Barnes, who is suing to recover \$50,000 from Colonel Roosevelt for alleged libel. And, Mr. Ivins nearly always replied to the questioning of the witness before resuming his examination in a soft voice that was scarcely audible in the rear of the court room.

Mr. Ivins, regarded in legal circles as a master at the art of cross-examination, alternately stood and sat in front of the witness chair, a great pink carnation carefully placed in the lapel of his coat and a little black skull cap on his head. Once, after the colonel became enthusiastically emphatic, the gray haired counselor remarked that the witness was treating him "as a mass meeting", while on another occasion he declared that he had no desire "to be eaten up here."

Read Lengthy Letters.

However, while lengthy letters between Colonel Roosevelt and Senator Platt and Colonel Roosevelt and Mr. Quigg were being read to the jury, Mr. Ivins stepped up on the stand and engaged the witness in a whispered conversation which both of them seemed to enjoy. The letters had to do with the relations between Colonel Roosevelt and Senator Platt in regard to legislative and political affairs before, while, and after the former was governor. The colonel remarked during the day that he believed he had written 150,000 letters upon various subjects while he was governor and president.

This was only the first day of Colonel Roosevelt's cross-examination.

He will resume the stand again tomorrow.

ANOTHER PIKE'S PEAK AUTO

The second of the two automobiles abandoned at Hannibal by the Pike's Peak Ocean to Ocean Highway party passed through the city yesterday afternoon at 2:30 o'clock on its way to rejoin the Colorado tourists. A brief stop was made at Estaque's garage on the trip through Jacksonville.

New Jewelry Lines Suited to the Spring Season

We are showing some very attractive new lines of jewelry now. The designs are especially adapted to the season and the prices especially moderate.

We invite you to call and inspect the offerings and you will be welcome, whether you buy or not.

SCHRAM, Jeweler

SOUTH SIDE SQUARE

Get More Milk This Winter—Cheaper, Too!

Feed Cheaper Grain and Less of It

Try feeding your cows International Special Dairy Feed this winter and see how much cheaper you can produce your milk. Stop feeding them straight corn and oats and bran while grain prices are so high. Ask for our free book and find out why this famous dairy feed keeps up maximum milk flow with less pounds of feed. It costs less per pound than your present ration.

INTERNATIONAL Special Dairy Feed

The most economical and profitable ready grain ration for dairy cows. Fed either alone or as part of the grain ration. Composed of prime mill feeds, cotton-seed meal, molasses, etc. A perfectly balanced grain ration that sharpens the appetite, keeps digestion in order, increases milk flow and lowers cost of production.

You can buy it for less than you have to pay for straight grains. And it goes further because it is properly mixed. The first ton will prove it.

Quality goods at quantity prices. We can beat anyone in town on high quality goods that are sure to please. We handle only the best and guarantee everything we sell to be first class. Get your telephone messages here when you come to town.

It Fills The Milk Pail

We have never sold a feed which gave such uniform satisfaction and made such firm friends as International Special Dairy Feed. One trial will convince you.

Sold by J. H. CAIN & SONS

Do You Need Coal To Finish Out the Season?

Try Carterville. if you have never used it. All coal, no cinders or clinkers. Costs a trifle more, but cheaper in the end.

Weekly per year . . . \$1.50

Entered at the postoffice in Jacksonville as second class mail matter.

Telephones: Bell or Illinois, 64.

At Warren, a town with a population of 1500, Mrs. A. R. Canfield has been chosen mayor and is said to be the first woman in the state chosen for that position. Mrs. Canfield is 75 years of age but has promised a progressive administration. Another bit of evidence that Dr. Osler was wrong.

The Danville city council is said to stand eight to six against licensing saloons and there is a strong likelihood that city, so long considered as a wet spot in the midst of a wide area of aridity may get into the dry column. A great deal of pressure is being brought to bear on several of the anti-license adherents to get them to change their positions.

Since insurance commissioner Ekorn of Wisconsin told the legislative committee at Springfield that Illinois property owners have paid \$58,000,000 too much for insurance protection the past thirty four years, big insurers have been wondering how about securing some rebates. Insurance rates may be excessive in the state but the public should not arrive at conclusions until the evidence is all in from both sides.

The newly elected officials of Jacksonville believe in system. They have agreed that all applications for positions must be in writing and to make applications easy and in uniform style they will have blanks printed for the use of those who wish to have their names considered. Incidentally the officers have let it be known that they do not wish to play politics or favorites, that efficiency will be the test and no one will be appointed unless there is need for actual service. As one officer, expressed it, "We cannot appoint people because they need jobs or have nothing else to do. The city is not an eleemosynary institution and we want to practice the same economical business methods that the managers of a private corporation would employ." Good sentiments these and judging from the personnel of the council, these ideas will be made effective.

Nelson's Requests.

The late W. R. Nelson of Kansas City was referred to in the Springfield, Mass. Republican as the greatest of American editors. That he was a man widely successful in a business way also is evidenced by the fact that he left an estate valued at \$16,000,000. Mrs. Nelson and her daughter are to have the income for life and after their death the whole estate is to be handled as a trust, the proceeds to be used for certain public work.

The value the great editor set upon agriculture is shown by the provision in his will which sets forth that a farm of 1750 acres in Jackson county, Mo. shall be used as a model farm for 30 years in order to teach the farmers of that locality the best things about farming and stockraising. Stringent provisions are made also against the sale of liquor on the farm. Mr. Nelson to the last indicating his strong anti-liquor sentiments.

Truth in Poetry.

A Quincy traveling salesman, who keeps open a most observant eye in his travels around the country, noticing the influences which affect a city's prosperity, sends to the Quincy Herald what he terms a "good piece of poetry." The poetry may be open to question, but the sentiment is one which every Quincyman should have deeply impressed upon his mind, and hence it is worth repeating. It is as follows:

"If you want to live in the kind of a town like the kind of a town you like, you needn't slip your clothes in a grip and start on a long, long hike. You'll only find what you left behind, for there's nothing that's really new. It's a knock at yourself, when you knock your town. It isn't the town—it's you. Real towns are not made by men afraid lest somebody else gets ahead. When everyone works and nobody shirks. You can raise a town from the dead. And if while you make your personal stake, your neighbors can make one, too, your town will be what you want to see. It isn't the town—it's you."

"The Quincy man further says in his letter: 'It will be a good thing to put in the paper for Quincy people who go to Chicago and St. Louis to buy their goods.'"

An Armory for Jacksonville.

The bill introduced in the lower house in Springfield yesterday appropriating \$40,000 for an armory in Jacksonville will receive favorable consideration if this city is accorded the treatment given other cities of the state where national guard companies are maintained. The policy of the state, in order to foster interest in the militia, has been to erect armories in various localities, affording proper facilities

for drilling and for the storage of equipment.

Quincy, Galesburg, Rockford and Springfield are a few of the cities where armories are now maintained and the erection of others is proposed in several cities.

In this issue some of the reasons urged upon the legislature for favorable action here are clearly set forth. Each year the need there is for the maintaining of a trained state soldiery is evidenced and Jacksonville is so located in the matter of railroad connections that service and aid could be quickly rendered throughout a large territory. Better quarters are needed for increasing the efficiency of the local companies and an armory here would offer the only adequate meeting place for many gatherings in which the state at large has a direct interest. The sum originally asked for was \$80,000 but the bill as introduced calls for \$40,000 just about half the amount spent for the erection of armories in other localities.

For Veteran Ministers.

The coming Sunday most of the active bishops of the Methodist church will occupy pulpits in Chicago to take part in a campaign being waged to raise a fund of ten million dollars to provide for aged, and disabled ministers, their widows and orphans. Through a period of years the importance of this subject has grown upon the clergy and last October the M. E. bishops in session at Washington by resolution declared it the supreme question for solution as they believe that the fear of being unable to provide for their families and for old age is having the effect of keeping many able and devoted men out of the ministry. It is said to be the ambition of those fostering the present campaign to create a new picture of the minister's career, which was at one time characterized by Dr. Agnew of Presbyterian church as "idealized at 20; criticized at 40; ostracized at 50; slandered at 60 and canonized at 70." The new state of affairs, it is hoped by leaders of the campaign, will witness recognition on the part of the church that the right to a comfortable support inheres in the gospel ministry and calls for an adequate retiring competency for the old age of ministers.

Rescuing the New Haven.

The New York, New Haven and Hartford Railroad which has run the gamut of fame and infamy for many years past, is scheduled to take its first big dose of elixir today, when the stockholders at a special meeting will vote on the proposal of the directors to reduce the capital stock of the corporation to the extent of \$22,889,100. The stock reduction, which is fully expected to be voted, will pave the way for reorganization of the road's finance, by which economy will be allowed to play a part in the operations of the big railroad system.

The stock reduction will also serve as a palliative for the legislatures of New England, which are trying to render legal aid to the distressed railroad. With general mortgage of \$157,000,000, bearing interest at 4 per cent, to replace notes costing the road more than 7 per cent. Also the new arrangement will permit the company to meet the maturity of the \$20,000,000 in 5 per cent notes due on May 1. The saving in interest is estimated at \$200,000 a year, and this, with the increase in earnings which is being made consistently, is expected to put the road back into the highly safe and efficient class where it led the country back in the days before the exploiters secured control.

Two big court actions are still to be decided before the public hears the end of the New Haven's troubles. First, there is the big government case against 21 directors and former directors of the New Haven, who were indicted for alleged conspiracy in connection with acts of the road, and criminal violation of the Sherman anti-trust law. The indictments reached some high places, even to William Rockefeller, the Standard Oil magnate.

Then there is a suit for \$102,000,000, brought against directors who were in charge of the road from 1904 to 1909, when the road's money is alleged to have been wasted.

WINCHESTER

William Howard left Wednesday for Sullivan, Mo. to visit relatives. Mrs. Eva Trickey Davis and mother and Mrs. Minnie Manasia of Leavenworth, Kansas, are here to visit with Samuel Trickey and daughter Mary.

Franz Biernbrauer of St. Louis was a visitor here this week.

Rev. J. F. Rogers who has been attending the sessions of the Springfield Presbytery at Taylorville, expects to return home in time to fill his Sunday appointments.

Winchester was visited by an immense rain Wednesday night and Thursday.

Miss Freda Munze has returned from Springfield where she visited her sister, Miss Bertha.

The final examinations of the 7th grades will be held Saturday at the high school building.

Shirley Revis left Thursday for a short business trip to Beardstown. He expects to resume his old position as city electrician upon his return.

William Moss of Meredosia was in the city Thursday.

Albert Rinaker of Valley City spent Thursday in Jacksonville.

George Northrup of Concord was among the business callers in the city Thursday.

James Galloway of Meredosia was transacting business in the city Thursday.

Miss Mary Martin of Literberry is making a visit with Jacksonville friends.

GOOD PICTURES ARE AN INSPIRATION

WORKS OF ART HAVE PLACE IN EVERY HOME.

Pictures Should Reflect the Tastes and Interests of the Members of Household—"Have Nothing in Home You Do Not Know to be Useful or Believe to be Beautiful."

(By E. J. Lake, Art and Design, University of Illinois.)

The use of pictures on the walls of the home is a primitive custom of mankind. Primitive man began by scratching the outlines of animals, birds and fishes on the walls of his cave dwelling. Then colors attracted him and he made use of colored earth for paint. Some recent discoveries of these cave pictures in the mountains of Spain and France show skill in drawing animals that would do credit to a modern artist. So by the record of pictures we may read the thoughts and impressions of mankind.

But there are differences between the pictures of one period and another in history. The beginning was a Jesire to make pictures as life like as possible. Then came the expression of ideas and ideals and finally the attempt to make beautiful pictures.

Here and there along the march of civilization people have reverted to the pictures of ugly and gruesome things in nature. Through education and religion men have acquired ideas and high ideals and these have been expressed in art. At the present time there is no impression so ignoble and no ideal so high that we may not find their expression in pictures.

Moreover the scientist has worked with the artist and pictures are printed and reprinted in their original colors so that look where we may we cannot avoid them. Our Sunday paper brings us a square yard of highly colored action pictures. News stands and sign boards contend for our attention. The moving picture shows are giving us a continuous performance of reality in pictures from all parts of the world.

A Surfeit Possible.

With all of this attractive distraction we may have a surfeit of pictures and decide that the home should be devoid of pictures. This would certainly be advisable if it was not possible to make the home restful and homelike by a careful selection of the pictures for our walls.

The pictures for the home, like the home itself, should reflect the tastes and interests of the members of the household. The test of use or beauty should be applied to pictures as to other furnishings of the home and we should follow the precept of William Morris "having nothing about your home that you do not know to be useful or believe to be beautiful."

But how may a picture be useful? A picture can be useful only in so far as it leads us to meditation or gives pleasure.

If, like primitive man we can be interested only in pictures of things that convey no thought other than the thing itself would arouse, then the works of great artists will not interest us.

Great artists do not merely make pictures of things. They convey ideas and ideals by pictures of things. Great artists see things in a way that is more significant than other people. Their work is not understood at a glance and it will give new ideas and sensations as it is seen from time to time. The direction of thought to be expressed by a picture is the first consideration in making a selection for the home.

Are we interested in landscape and nature? Then the works of the nature loving artists will give us a selection of landscape that varies from the soft, reflected light, dramatic sentiment and deep sky of Claude Lorraine's great picture to the low, rich sunset of our own American artist Inness.

Are we interested in country life and country people, the fellowship of men and the dignity of honest toils? Then we should go to such artists as Millet and Israels who have expressed these sentiments.

It is impossible to list the interests of humanity here but whatever our interests may be we may be sure that some great artist has expressed them in such form that we may secure a good reprint for a few cents that when hung on our wall will not need to be replaced with the calendar.

Such pictures will be a constant inspiration and delight to the person who observes them thoughtfully and they will be an effective antidote for the superficial pictures of the streets and magazines. We may well remember that "Great art is of no particular time or place." But that it is essentially a great idea and that it represents the best work of a great man.

But the home is the place for more serious ones but they have their use in the home. The little folks of the home should have pictures that are designed to arouse their interest. Pictures for children should show action and life but contrary to a general impression they need not represent small details.

A series of nursery decorations representing a procession of white and yellow chickens on a green background has been one of the most popular of such designs. Green is the last color seen by children and is consequently suitable as a ground color for children's pictures and decorations.

Simple Beauty.

In selecting pictures for the home a few people of cultivated taste will agree with Browning that "Simple beauty is God's best invention," amusements as well as meditation. It is a dull home that has no laughter and jest. A care free cavalier by

(Continued on Page Four.)

RED CROSS

Tooth and Toilet Preparations

All the Red Cross preparations are the results of years of scientific work. Each is as pure and perfect as human skill can make it.

For the Teeth

RED CROSS TOOTH PASTE—Keeps gold fillings bright, perfectly cleans the teeth and prevents decay. In a sanitary tube; no waste; convenient. 25c a tube.

RED CROSS ANTISEPTIC MOUTH WASH—The unequalled mouth wash for the teeth and mouth. Kills the germs of decay; purifies the health. 25c per bottle.

For the Toilet

RED CROSS DISAPPEARING CREAM—Absolutely absorbed instantly into the pores; contains no grease. A skin nourisher and complexion beautifier. 25c per jar.

RED CROSS FACE POWDER—The perfect face powder. Pure Rice Powder Base—white, cream, flesh and pink. 25c per box.

RED CROSS PURE COLD CREAM—A cleansing cream, pure white; antiseptic; tones up the skin. Can not make hair grow. Price 25c in jars.

Mrs. Frank Hauser and son, Louis were in the city Thursday enroute to their home in Joy Prairie after a visit with relatives in Virginia.

CASS COUNTY CHRISTIAN ENDEAVOR UNION RALLY

Will be Held Today and Saturday in Arenzville—Meeting of Committee of Jacksonville District.

The annual Cass county Christian Endeavor Union Rally will be held today and Saturday in Arenzville and several from here expect to attend including Howard P. De Pew. The executive committee of the Jacksonville district will hold their sessions this afternoon.

The program follows:
Friday Afternoon.
2:00—Opening song and Devotional Service—Rev. Williams, Beardstown.
2:30—Roll Call, Miss Cecil Man-warring, county secretary.
2:45—The Efficiency Campaign—Mr. E. P. Gates, Chicago.
3:15—Special music—Christian Society, Beardstown.
3:20—Missionary Conference, led by Miss Josephine Sudbrink, Virginia.
3:40—Special music—Presbyteri-an C. E., Arenzville.
3:45—Address—Rev. W. B. Shirley, Carrollton, district president.
4:15—Meeting of Executive Committee of Jacksonville District.
Friday Evening.
7:30—Song Service—Rev. Williams.
8:00—Devotional service—Rev. W. B. Shirley.
8:15—Vocal Solo—Miss Mary Violet, Beardstown.
8:20—Address—"Best Things in Christian Endeavor", Mr. E. P. Gates.
Collection for county work.
Vocal Solo—Miss Annette Morse, Chandlerville.
Social Hour—Arenzville Endeavorers.

Saturday Morning.
8:00—An Ideal C. E. Meeting—"Why I Believe in Christian Endeavor"—Mr. Gates, leader.
Intermission.
9:15—Song and prayer.
9:30—Business session.
10:00—Messages from our Juniors—County Junior Superintendents.
10:45—Closing moments.
"Oh wad some power the giftie gie us
To see ourselves as others see us"
Rev. W. B. Shirley, Jacksonville, district president.
Mr. E. P. Gates, Illinois Field Secretary.

G. H. WILSON TO SPEAK.
Geo. H. Wilson of Quincy, Ill., dry leader in the state legislature, will speak to men at Grace Church Sunday morning at 9:30 o'clock on "The Citizen's Duty".
Mr. Wilson, champion of this growing movement, is qualified to speak on this timely subject and it should be an hour well spent. Mr. Wilson is well and favorably known here, having graduated from Illinois college, as well as marrying a Jacksonville girl. He desires a large turn-out of interested citizens in the live topic of the day. All men are welcome, Sunday morning at 9:30 o'clock.

VISITED FORD ASSEMBLING PLANT.
C. N. Priest returned Thursday evening from St. Louis where he went to visit the Ford branch factory. Fifty cars are now being turned out there daily but he could secure only one sedan and five touring cars for shipment here now. The plant occupies a five story building covering a block and employs an immense number of people. Mr. Priest planned to have the cars brought overland but the rain made the other plan necessary. A very heavy rain fell at Manchester, at Carrollton only a few drops, and down at Godfrey the rain fell was like that in the Manchester vicinity.

NEW SPRING COATS

Spring coats of the very latest style. Shephard checks, covert cloths, neat fancy all wool clothes in black and navy. Sizes 16-18 and on to extra large sizes for stout women at special reduced prices for this week.

MEREDOSIA ROAD OPENING CASE HEARD IN JUSTICE COURT

Jury Will Inspect Proposed Right of Way—Barber Arrested on Bootlegging Charge—Other Justice Court Cases.

L. V. Baldwin, county superintendent of highways on Thursday entered suit before Justice Dyer for a hearing and assessment of damages for a proposed highway in road district No. 5 in the vicinity of Meredosia. The defendants named are Mrs. L. Purnell, Mrs. J. B. Keegan, Thomas Sawyer and L. O. Vaught and J. P. Lippincott as executors of the estate of the late H. C. Carriel. The jurors sworn in to hear the evidence and assess the damages are Ed A. Litter, A. W. McFarland, E. J. Henderson, T. B. Boyd, Charles Black and W. H. Cocking. Attorney Hugh Green appeared for the plaintiff and Messrs. Vaught and Lippincott for the estate for which they are executors. The jury after being sworn and instructed adjourned to meet on the land where the proposed road is to run and will return to render their decision to the court, possibly today or Saturday.

Deputy G. L. Stice arrested Chris Railey, a barber doing business on North Sandy street for selling liquor. On information he has filed in the county court. He was placed under bonds in the sum of \$300 with Edward Konrad as security for appearance for trial at the September term of court.

Thomas King, who was shot while burglarizing the depot at Sinclair on March 19, and who has held in jail since, was taken before Squire Dyer Thursday where he waived examination and was committed to the county jail to await trial at the May term of court.

Charles J. Wright and David Sparks of Franklin were arrested by deputy sheriff George L. Sutto on a warrant sworn out by W. C. Heaton, special detective of the Burlington road. They were charged with jumping on and off a moving train. They were taken before Squire Dyer where they pleaded guilty to the charge and were fined. The fine and costs in each case totaling \$29.40.

HAD NARROW ESCAPE.

During the rain and thunderstorm at about 5 o'clock Thursday morning lightning struck the house of Herbert J. Henderson about two miles north of the city on the extension of North Main street. Mrs. Henderson was in the kitchen adjoining the dining room and received a slight shock, but not sufficient to prostrate her. Mr. Henderson was at the barn at the time. The lightning is supposed to have been attracted by a telephone wire as it broke a hole in the side of the house near where the wire connection entered. A large pane of glass in a window was shattered, and a shelf running along the side of the dining room upon which was a collection of choice plates and some other highly prized pieces of chinaware were broken in to bits. Fortunately the chinaware in daily use was not disturbed.

ARMORY PROPOSED FOR JACKSONVILLE

BILL INTRODUCED IN LEGISLATURE PROVIDES FOR ITS ERECTION.

Need Is Shown for Adequate Quarters for Two Local Companies of Militia—Building Would be Useful for Other State Purposes.

In the lower house of the general assembly at Springfield Thursday Representative T. E. Lyon introduced a bill providing for the erection of a state armory in this city at a cost of \$10,000. For some weeks officers of the Chamber of Commerce have been working upon this project and the introduction of the bill was the result and it is believed that favorable consideration will be taken by the legislature as Jacksonville is the only one in the state having two companies of militia without an armory.

President Reeve and Secretary Weber of the Chamber of Commerce together with a number of members secured the active co-operation of State Treasurer Andrew Russell. Representatives Lyon and Merritt promised their support and it is understood that Senator Smith and Representative Butler will also aid. The argument made by the Jacksonville citizens in behalf of the project are set forth in their statement to the legislative committee as follows. An \$80,000 appropriation was at first asked, but this was reduced to \$10,000 later.

"Jacksonville has a population of nearly eighteen thousand and the county itself a population of thirty-five thousand.

"Jacksonville has supported for many years two strong military companies, namely, Company B, 5th Infantry, I. N. G. and Company L, 8th Infantry, I. N. G. It is now the largest city in the state without a State Armory for the proper housing and accommodations of its militia and is the only city in the State without an Armory supporting two strong military companies. Jacksonville has long prided herself on her two splendid companies of Infantry and many men of State and National prominence in military affairs have been nurtured and trained therein.

A Likely Location.

"During the dark days of the Civil War Jacksonville undoubtedly furnished to the Union more men of military genius than any one other locality, and the call to arms in the Spanish American War of 1898 found her two companies ready to answer their country's call without delay. The necessity of strong well drilled military companies in Jacksonville is clearly manifest, situated as she is on the trunk lines of four great railroads, namely, Wabash, C. & A., C. B. & Q., and C. P. & St. L. with their many and various connections, the importance of this city as a strategic point and the opportunity of dispatching either or both of these companies to any part of the compass at a moment's notice in case of riots, strikes, disastrous fires, uprising or other possible contingencies, is clear to all and is a most important consideration.

"Furthermore, Jacksonville is the home of three of the largest State Institutions, Jacksonville State Hospital, School for the Blind and the School for the Deaf. Adequate and immediate protection is necessary for these great institutions when any of these contingencies arise, especially in the case of disastrous fires as was demonstrated two years ago at the Insane Hospital. Such protection is best and quickest afforded by live, well trained companies of a State Militia.

"While we review with pride the achievements of the past, and look forward to the splendid possibilities of the future, the fact that these splendid companies are laboring under adverse conditions, is to be regretted. Company B of the 5th Regiment is very poorly quartered in the second story of a building in a room of an abandoned opera house known as Strawn's Hall. This building is three quarters of a century old. The housing conditions and the opportunities for mass and drill work are very poor indeed. A rental out of all proportions to the benefits and privileges received is now being paid as other accommodations are not to be found.

Present Quarters Inadequate.

"Company L of the 8th Regiment is quartered in the third story of an old fashioned brick and frame building exceedingly difficult of access and with unusually poor facilities for a company of militia and which have long since been outgrown. Each of these companies is hampered by lack of room, unsatisfactory conveniences, antiquated facilities and accommodations, and the rental paid by the State for such quarters does not bring adequate returns for the money expended. All this is a fact solely because the City of Jacksonville does not contain a single building which could under the most favorable circumstances be used as satisfactory quarters for the said two companies of militia and provide for them proper conditions conducive to growth and military efficiency.

"The pressing need of the militia in Jacksonville is for a suitable building to be erected at once, designed and constructed to provide ample room and modern accommodations for the maneuvers of said companies and one especially adapted to meet their peculiar and varied demands.

"To this end, the officers and privates of the said Company B, Fifth Infantry and of the said Company L, 8th Infantry, and the citizens of Jacksonville at large, having at heart the best interests of said military companies and realizing the

"A TALE OF THE DEADLY POPPY" AS TOLD BY MORPHINE VICTIM

Dentist Who Falls Victim to Drug Tells Story After Completing Cure at the Jacksonville State Hospital.

The following account contains the story of a drug victim recently cured at the Jacksonville State hospital, narrated to Dr. E. A. Foley, who transcribed the patient's story and with it brought out the successive steps in treatment and observations on the baneful nature of the habit. The patient is a man of middle age and evident education and claims to have had newspaper experience as well as advanced academic training. The story as set down by the physician, follows:

Disgrace, ruin, poverty—all the result of one harmless looking small white pellet! This is the story of repeated by unfortunates who are striving to gain a new foothold in life's pathway. For some weeks previous to the first of March, 1915, little stores of life stealing drugs, were procured by slaves to its use. This was not possible, however, in all walks of life. Where the fateful hand of time had wrecked the soul and body through the use of drugs, money was not so plentiful. These poor outcasts were compelled to undergo indescribable suffering when the Harrison Anti-narcotic law became effective.

At the present time it is needless to go into detail giving the reasons leading up to the enacting of such legislation. All are familiar how for ages past many a bright future has been dimmed by indulgence in the extract of the poppy. The flower, beautiful in itself to look upon, is like the siren of the ancients. The attractiveness of both being overshadowed by despair that too close an acquaintance with either brings about.

Harmless at first and in the majority of cases only given to relieve suffering, the morphine habit gradually grows until the unfortunate victim becomes its slave. Hand in hand with its companion in evil "alcohol," the victim soon loses all adjustment to social standards. Love of home, self-respect and ability to gain a livelihood by honest means, rapidly gives way to a life of neglect and indifference to the sufferings of those most dear. There is but one step now to the underworld with a final resort to prostitution and crime. This sequence of events is all too true and is not the product of a vivid imagination.

All are able to recall the unfortunate career of some of the playmates of our early days. Who of you cannot picture one youth favored by an indulgent parent. This child, luxuriously surrounded with everything to make a heart comforted and to satisfy every desire. You can remember how, during school days he was envied by all of his fellows. Later he was the fortunate one to be sent from his home to college. His return at vacation time was the cause for the neighborhood celebration. After graduation through the influence of his father's money he was able to locate in a nearby metropolis. Here he began to practice dentistry. After a few years of hard work through untiring efforts and days of sobriety he attained a name for himself in the dental world. With success in business and social standing, habits soon changed. At first abstemious, wine slowly began to fasten its fangs on the unfortunate youth. The habit grew until his hand was no longer steady and his eye no longer bright. His clientele so took notice and gradually drifted to other fields. In order to deceive himself and to check the unsteady nerves he soon adds to his habit of alcohol the deadly morphine. At first the amount required was small. He could work better, so he thought. His clientele noticing a change under the stimulation, began to drift back. As time went on it required more and more of the drug to keep him at his work. Soon the amount became enormous and alarming. With increased dosage, the man became more helpless, more untrustworthy than ever and his eye more dull. Then followed a marked indifference to his standing in the community and he sank lower and lower into the mire of despair. At this period he was neglected by all except his faithful wife and family. A spark, however, of his old training still lingered within his breast. Notwithstanding that his body and arms were tattooed by the puncture of the needle and his brain was sluggish, he realized that something must be done to restore him again to the standing he once occupied in society. At this stage, the great common wealth of Illinois opened the doors of her institutions and proffered relief to him and many of his kind. Readily he accepted the offer and placed himself in experienced hands.

When first admitted to the Hospital he begged pitifully not to be deprived of the few white pellets which he had in his possession. When these were denied him, he submitted to the ordeal through which he was to pass. The first twenty-four hours under institutional care can only be pictured when some one states that he passed through the tortures of the damned. With a feeling of impending desolation, the muscles cramping and drawing up in knots, the stomach revolting against all food, no sleep, living over and over again his past miserable existence and begging piteously for just one "shot in the arm." This is considered the danger point for all drug habits. It is known as the withdrawal period. When the victim is deprived of his usual dosage, suicide is very apt to take place. If not suicide, the victim may become homicidal, or do anything to obtain morphine. The drug crazed victim will

resort to any crime to obtain means for relief. In skinned and experienced hands during the first few hours of torture the drug victim may be piloted into the still waters of a safe harbor. The stomach of the drug victim, during the period of withdrawal just described, is extremely irritable, even water will produce vomiting. The sufferings of the miserable drug wrecked creature is more intense than words or pen can describe. One must see for himself before he can realize how much misery can result from the indulgence in this vicious habit.

Nor is the first suffering all. One does not spend years in forming a habit to be relieved by a few short twists of the muscles or a few hours of pains. After the first twenty-four hours have passed away, ease slowly comes on. The stomach becomes less irritable. The victim is able to retain a slight amount of water; then a raw egg or an egg beaten up in milk. Only a little can be taken at first. The abused stomach does not come back readily to the condition. It should be in. With the progress of time the muscular pains begin to subside. Occasionally is the unfortunate one reminded of the experience he has passed through, by an occasional twist both mentally and physically. He is on the road to recovery providing, however, no unforeseen cardiac complication intervenes.

Gradually the pain is lessened, he feels more at ease. He is now able to retain food in his stomach which has become less irritable, but he is so weak he can hardly move. Now with the exhibition of a general tonic the physical condition improves and strength gradually returns. By this time his pathway is apparently sunshine and roses during the day. During the night, however, the evil spirits again return to torment him. The plea is oft heard, "Please, Oh, please give me something to sleep. Give me something to drive away the horrors that come with the setting of the sun. I would be all right if I only had something to make me sleep. Can't anything be done to help me?" These are words used by the slave as he passes through the period of reformation.

Instead of health destroying drugs to produce artificial sleep, the old remedy of the ancients has in the past few years been again revived. Under the name of Hydrotherapy, water as an adjunct of treatment of nervous conditions has worked wonders. In such conditions as the one above described, the greatest relief comes. By placing our sleepless man in a bath, the water at a temperature of 96 degrees Fahrenheit, and keeping the victim in this for hours at a time with the water gradually flowing over him, a sedative state soon arrives, whereby a natural sleep ensues. Maybe the bath will have to be repeated daily to procure the desired results. In a short time the victim will begin to sleep peacefully; his skin is cleaner, his eye, brighter and he is more cheerful.

The change that takes place in the victim by the combined withdrawal of the drug, proper supervision of diet, tonic and hydrotherapeutic treatment is marvelous. Soon our friend is able to be up and about; he rapidly increases in weight; his mind becomes like its old self. His hand again steady, his eye bright and in a short time he is able to return to those most dear. Returning to his old community, he is now able to take up his proper place in the social sphere in which he moved; his clientele begin coming back and every assistance will be offered him.

Is life's struggle over for him now? By no means. In former years many a slave to the drug habit has been sent on their way rejoicing, only to fall deep into despair through lack of will power and the ease with which drugs could be procured. Now with the conscientious enforcement of the anti-narcotic law, one with good intentions will not narrowly be led from the straight and narrow path. A bright future will be the reward of the friend of our youth, who was saved from the grave of a pauper, or still worse, the life of a criminal.

Drug addicts are not always as fortunate as our college friend. In their beginning, life was less prosperous. They may have come to their present standard by no fault of their own. Afflicted with incurable conditions, they may have had to resort to surgical interference for relief. Following the operation, a misguided or weak physician may have been the cause of bringing on the present unfortunate condition of the victim. When appealed to, to relieve their malady, his only knowledge would be the deadly hypodermic needle. Soon the victim would learn to administer the narcotic himself without consulting the physician or anyone whatever. Such cases are on record and not amiss. The stories recently revealed would make one shudder if the curtain of secrecy could be lifted and exposed to public view.

Better times, however, are in store. The transitional period is upon us. After the storm blows over the sale of narcotics will be limited to only illegal vendors. We will see no more, the death dealing pellets perniciously used by patients or physicians.

Our Legislators has seized upon the psychological moment to draft drastic laws as an adjunct to the federal law, in order to aid in the stopping of illicit use of morphine and other drugs.

Illinois ever mindful in time of need, is doing a wonder work unknown to the public. Since the governor's proclamation, numbers have come knocking at the doors of the hospitals for relief and relief they are receiving. The results accomplished can only be obtained from the freed slaves themselves. The en-

What We Won't Do

We won't sell you a \$25 suit for \$10 or \$15, for when we sell you a \$25 suit we sell you a suit tailored by master tailors of the

world and they are worth \$25, and most merchants think they are worth more, and do sell them for more.

What We Will Do

We will sell you a \$15 suit that we will bank against any \$18 suit you ever saw or wore. They have style and quality too.

Let Us Show You!

Take a glance at our \$2.00 and \$2.50 HATS on display this week. You will see style and value.

Vacancies Now Exist in Two Institutions for Important Positions.

The State Civil Service Commission will hold an examination for assistant superintendent, correctional, Saturday, May 1, 1915, at Anna, Carbondale, Charleston, Chicago, DeKalb, Dunning, East St. Louis, Elgin, Jacksonville, Kankakee, Lincoln, Macomb, Mt. Vernon, Normal, Peoria, Pontiac, Quincy, Rockford, Springfield, Urbana and Watertown. This examination is open to men over 20 who are residents of Illinois. The starting salary is \$100 per month with maintenance for self and family, and there is possibility of increase to \$150 a month. Vacancies now existing at the Pontiac Reformatory and the St. Charles School for Boys will be filled from the eligible list resulting from this examination.

The principal duties of an assistant superintendent, correctional are to assist the superintendent in a correctional institution; to act in his place in his absence; to supervise employees; and to handle correspondence and clerical work. Candidates should have education equivalent to graduation from a good high school; experience in a correctional institution is very desirable.

The examination will include the following parts, weighted as indicated: Training and experience, 3; oral and written tests on general education, administrative procedure, and advanced methods used in handling the inmates of a correctional school, 7.

Candidates must make a grade of 70 or more on the written portion of the examination. Those receiving 70 or more in the written portion will be assembled later for a supplementary oral test.

Applications must be on file in the office of the commission in Springfield not later than 5 p. m., Saturday, April 24, 1915. Application blanks may be secured by addressing the State Civil Service Commission, Springfield, Ill.

GIRLS! THICKEN AND BEAUTIFY YOUR HAIR.

Bring Back Its Gloss, Lustre, Charm and Get Rid of Dandruff.

To be possessed of a head of heavy beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25 cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance; freshness, fluffiness and an incomparable gloss and lustre, and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine, and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.—Advertisement.

franchised negro, fifty years ago was not more grateful than the hundreds leaving our state institutions at the present time. May the good work go on and all who seek relief be admitted and finally return to their families, good and useful citizens of this great commonwealth.

DEATHS OF FORMER RESIDENTS RECORDED

William Ross and N. W. Reynolds Died in California.

The Pike County Republican of April 21, had the following in its Pittsfield department:

Mrs. A. C. Matthews received a telegram yesterday announcing the death of her brother, Wm. Ross, who died at his home in San Jose, Calif., Monday, Mr. Ross was 89 years of age and is survived by his wife and five children. Mr. Ross was a son of Colonel Wm. Ross, a former resident of this city. We will be remembered by many of the older people here.

Mr. Ross married Miss Mary P. Bullard of Perry, and had acquaintances here. He attended Illinois College at one time, and was a member of Phi Alpha Society. In its Perry correspondence the Republican had this:

N. W. Reynolds, a former Perry resident, died at his home in Los Angeles recently. His wife was Miss Sophia Moore, a sister of F. C. Moore and well known to older residents here.

Mr. Reynolds lived in Jacksonville a few years ago, at the northwest corner of Prospect and Grove street. He had been a Union soldier, with the rank of Lieutenant, and was known to the old soldiers here. Mr. Reynolds was an uncle of Mrs. J. W. Lane, of West State street.

Samuel J. Dalton, field engineer for the Caldwell engineering company has gone for a brief visit at the home of his parents in Booneville, Miss.

SPRING IN EUROPE

The balmy Spring should stir up all men to labors sane, but over there in Yurrip they're planting men, not grain. The plow's unused and dusty with rust the hoe is red; the cultivator trusty stands idle in the shed. Red is the stream that washes its pathway to the sea; they're planting men, not squashes—what shall the harvest be? They're planting men, not pumpkins. Beneath the bright Spring sky; they're sowing poor dead bumpkins who fought and knew not why; they're planting men in furrows, among the clods and stones, and there the gopher burrows among the soldiers' bones. Oh, what a foolish sowing, in Europe's sodden plain, while here the crops are growing in sun and wind and rain! In this fair land the farmer is sowing wheat with drills; o'er there the gents in armor are planting men in hills; they plant, the peasant's yard in, the victims of their blifs, the common or the garden variety of stiffs. Oh, Europe, old and hoary, you ought to have more sense; your agriculture gory, that's now in evidence, is wicked, vain and foolish; the seed is out of style; the tools you use are ghoulish, the crops you'll raise are vile.

THE PUBLIC INVITED TO THE TEACHERS' ASSOCIATION.

It may not be generally understood that the public will be cordially welcomed at the sessions of the teachers' association at the new David Prince building today.

Among the interesting features will be music by pupils from the State Institution for the Blind; music, folk dances, Miss Aisie Goodrick, address by president H. W. Shryock of the state normal university at Carbondale; reading by Miss Jeanette Taylor, all in the morning, beginning at 9:30.

In the afternoon the attractions will be music, Mrs. Genevieve C. Wilson, of the Illinois Conservatory of music; address, "The Gospel of Labor," by Rabbi Leon Harrison of St. Louis and entertainment by Dr. C. C. Smith of Roodhouse.

ADMINISTRATOR'S NOTICE.

Estate of Henry W. Franz, Deceased.

The undersigned having been appointed Administrator of the estate of Henry W. Franz, late of the County of Morgan and State of Illinois, hereby gives notice that he will appear before the County Court of Morgan County, at the Court House in Jacksonville, at the June, 1915, term, on the first Monday in June next, at which time all persons having claims against said estate are notified and requested to attend for the purpose of having the same adjusted.

All persons indebted to said estate are requested to make immediate payment to the undersigned. Dated this 15th day of April, A. D. 1915.

E. F. Johnston, Administrator.

NINTH INNING RALLY BRINGS SOX VICTORY

J. COLLINS DASHES HOME ON WILD PITCH.

Five Solid Hits, Including Two Triples, Tie Score in Ninth and Lowermilk's Wild Pitch Gives Chicago Winning Tally.

Chicago, April 22.—A thrilling ninth inning battle produced five Chicago runs and brought a victory over St. Louis after six straight defeats in the opening of the American League season here today. In the ninth five solid hits off Weisman, including triples by Roth and John Collins and a passed ball aided the score at four. Lowermilk took up the burden and the second ball he pitched was a wild pitch on which J. Collins dashed home. The score: St. Louis. A. B. R. H. P. A. E. Shotton, cf. 4 0 1 4 0 0 Pratt, 2b. 3 1 1 0 0 0 Williams, rf. 4 1 2 3 0 0 Kaufman, lf. 3 1 1 0 0 0 C. CLOSING DAY AT EBENEZER SCHOOL.
Through the courtesy of Mr. and Mrs. E. Jordan, twenty-two pupils and the teacher, Miss Zenor of Ebenezer school spent Tuesday in the woods.

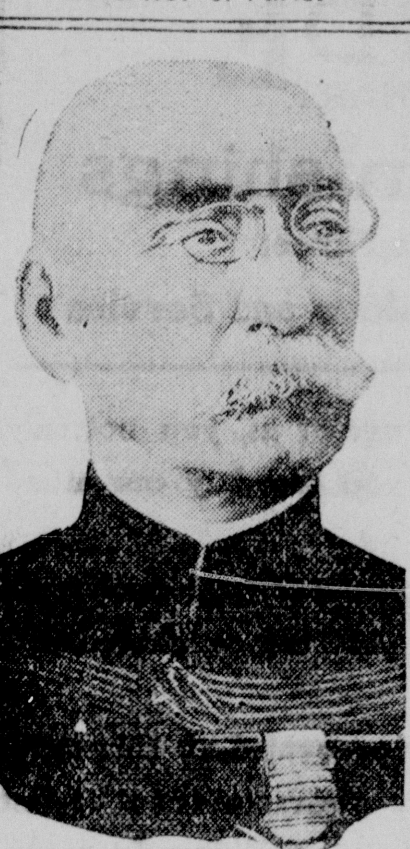

After enjoying the hills covered with beautiful flowers all gathered to eat the picnic lunch. Eggs, "cooked while you wait" were included in the bill of fare.

One of the pupils, who has an injured ankle was brought over and enjoyed the outing.
In all ways the day was enjoyed and the pupils joined in wishing their teacher success and happiness.

A. A. McNeal of Sinclair had occasion to visit the city yesterday.

NOTABLES IN THE LIMELIGHT

General J. Gallieni, Military Governor of Paris.

General Joseph Gallieni, to whom was entrusted the defense of Paris, is considered one of the ablest military men in France. As military governor of Paris he was given extraordinary powers, which in effect rendered him independent of interference by either the minister of war or General Joffre, commander in chief of the French armies in the field.

Although a native of France, General Gallieni is of Italian parentage. He was born in 1849 and is a veteran of the Franco-Prussian war of 1870. Most of his military knowledge, however, has been gained in the French colonies in Africa and China, where he spent thirty-six years of his life. His principal task probably was the conquest and pacification of the island of Madagascar, a work which converted a formerly barbarous kingdom into a rich and well ordered colony. During his ten years' administration he built a network of railroads and highways across Madagascar and developed its immense agricultural and mineral resources.

Those who know both men say that General Gallieni is much the same type of soldier as Lord Kitchener, England's minister of war. He is a wonderful organizer and administrator and a man of strong determination. Like Kitchener, too, he is of few words, but much action, and he has the entire confidence of the French, especially the Parisians.

German Army Commander.

Noted among the commanders of the Kaiser's military forces is General Karl von Buelow. In the dash into France von Buelow commanded one of the armies that composed the center of the German line. The other was commanded by General von Kluck.

General von Buelow is a veteran in the German military establishment and won his high place only by long years of faithful service. For many years he has been recognized as one of Germany's foremost military tacticians, and he has been instrumental in building up the quartermaster's department.

GENERAL KARL VON BUELOW.

of the German army. His long and varied experience makes him of great value to the Kaiser in the present war. General von Buelow was born in Potsdam in 1846 and is therefore sixty-eight years of age. As a youth he entered the German military service and gradually advanced through the various grades. His first prominent position came when he was appointed chief of the general staff of the guards. This was in 1890. Twelve years later he was made quartermaster general of the general staff of the army and in 1903 became commanding general of the Third army corps. In 1904 he was a general of infantry and later given command of an army.

"Me for 'GETS-IT' When I Have Corns"
Simple As Saying It; Never Fails.
It does your heart good to see how easily and quickly any corn comes out when you put "GETS-IT" on it. And then you've gone along for years trying

everything, when you've sat up nights wrapping up your toes in bandages, smearing on salves that rub off on the corn, resting on cotton plasters that make corns pop-eyed, slaughtering your toes with razors, jabbing them with knives and prunning to the quick with scissors—and then you put on 3 drops of "GETS-IT" and see your corn fall right off—why, it just looks like a miracle. Just try it. "GETS-IT" never fails. No pain, no trouble. Use it for any corn, callus, wart or bunion.

"GETS-IT" is sold by druggists everywhere. 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

Sold in Jacksonville and recommended as the world's best corn cure—by Armstrong's Drug Store—J. A. Obermeyer.

NEW DISCOVERY FOR SKIN DISEASES

Doctors Having Great Success With Amolox.

Amolox, the new remedy for the cure of eczema and skin diseases, is applied externally. Does not soil or stain, dries instantly, is soothing and antiseptic, penetrating the skin, killing the germs that cause the disease. It is the prescription of a well-known physician, who has used it with remarkable success in his private practice.

Cases of chronic eczema, tetter, psoriasis, acne are now being cured after all other remedies have failed. It will positively kill the germ and heal the skin in barber's itch in a few days. Stops all itching and burning instantly, renders the skin soft and soothes it so the sufferers can rest and sleep. Coover & Shreve will refund your money, if you are not satisfied. Best results are obtained when both liquid and ointment are used. Trial size 50c.—Adv.

SPRINGFIELD PRESBYTERY HAD INTERESTING SESSION

Spring Meeting Held at Taylorville—Dr. John Rugh Installed as Pastor.

Dr. A. B. Morey, Irvin Stevenson, Dr. C. C. Cochran, R. R. Stevenson and Rev. W. E. Spoones have returned from Taylorville where they went to attend a meeting of the Springfield Presbytery and report an interesting and profitable gathering of those interested in church work.

The first service was held in the Presbyterian church there Tuesday evening, when Rev. S. B. Taylor, the moderator, preached a sermon. Some general matters of business were also given attention at this service. Wednesday a business session was held in the morning and another in the afternoon, and at night Rev. John Rugh was installed as pastor of the First Presbyterian church. At the business session Rev. Mr. Smith of Decatur, now a student at McCormick Seminary, was licensed and ordained. He will do work this summer in Michigan. At the installation service of Mr. Rugh as pastor, Rev. F. M. Morton presided. The sermon was preached by Dr. D. E. MacLeod. The charge to the pastor was given by Rev. Henry Love, and the charge to the congregation by Rev. M. L. Laird. One item of business in which Jacksonville people were interested was the agreement on the part of the presbytery to pay the interest debt for this year of Northminster church. This amounts to something like \$450.

ATTENDED RATE HEARING.

A. C. Rice returned yesterday from Chicago where he has been to attend the grain rate hearing before Commissioner Daniels at the LaSalle hotel. Mr. Rice went to the hearing as the president of the Illinois Farmers' Grain Dealers Association. The question of grain rates is only one portion of the freight rate hearing, which has been in progress now for practically six weeks. Commissioner Daniels of the Interstate Commerce Commission, has been conducting the hearing and the length of time it has consumed is an indication of the thoroughness with which the whole subject is being considered. The farmers are especially opposing the proposed increase in grain rates on the claim that it is not only an injustice to them but must necessarily mean an added expense to the consumer.

HAS BEEN PROMOTED.

Van Osborne of Kosciusko street, who has held position in the mechanical department at the "Q" shops in Beardstown has been promoted and sent to fill a position in the company shops in St. Paul, Minn.

G. A. R. ATTENTION.

Regular meeting of Matt Starr Post No. 278 this evening at 7:30.

COURT NEWS

Real Estate Transfers.

Manuel M. Fernandes to Antonio Fernandes, quit claim deed to lot 1, John Allen's addition to Jacksonville, \$1.

Manuel M. Fernandes to Antonio Fernandes, one-third interest in part lot 21, Duncan Grove addition to Jacksonville, \$1.

Suits Added to Docket.

Two more suits were added yesterday to the docket for the May term of the circuit court.

Edward Wemple et al. have brought suit against Henry Horton, trespass on the case on promises, in which it is set forth that the defendant is indebted to the complainants in the sum of \$1,106.60 and the interest thereon. The suit was filed by C. F. and P. W. Wemple, as attorneys.

Robert Tilton, as attorney for Mrs. Lillian B. Meyers, has filed divorce proceedings against James F. Meyers. They were married Nov. 10, 1910, and habitual drunkenness is the charge made.

Probate Court.

In the estate of Margaret E. Catlin, the petition for probate of will was heard and the document was admitted.

In the same estate, letters testamentary were issued to C. H. and Lucy Catlin.

In the estate of George Tritsch, the oral motion for the discharge of the administrator was allowed and the estate declared closed.

In the estate of Anna M. Carroll, the final report of the executor was approved and the estate declared closed.

In the estate of James B. Gordon, the report of sale of real estate was approved.

In the matter of the guardianship of Carroll, Carl and Opal Redfern, the report of the guardian was approved.

In the matter of the guardianship of F. C. Smith, et al., report of the guardian was approved.

In the estate of Catherine Carroll, the petition for authority to pay taxes was allowed.

PICNIC POSTPONED.

On account of the rain and muddy condition of the roads the picnic which was to have been enjoyed by Mrs. Miller and Prof. Stone's Sunday school classes of the Grace church at the home of Mr. and Mrs. Barbary on the Strawn farm, southwest of the city, this evening, has been postponed indefinitely.

James Galloway of Mercedosa was in the city yesterday attending the trial over the new road east from his place.

Brief News Close to Home

Diphtheria at Pontiac.—Dr. Frank Shelton of near Springfield, Mr. Bawden and Dr. C. C. Meeks of the city board of health, have closed St. Mary's parochial school until further notice, after two cases of diphtheria had been discovered among the pupils. The school will be completely and thoroughly disinfected in the meantime.

Post Office Site.—Postoffice Inspector W. O. Baumgardner of Jacksonville spent yesterday in Griggsville investigating the various buildings which are being considered as locations for the postoffice. The lease on the present quarters will expire July 1, and a number of bids have been filed.

Undertaker a Bankrupt.—Ernest H. Preston, an undertaker and mortician of Bloomington filed a petition in bankruptcy in the United States district court. Preston scheduled his liabilities at \$9,207 and his assets at \$260, which he claimed exempt. He was adjudged bankrupt by Referees in Bankruptcy E. S. Robinson.

Candidate for Governor.—Recalling Mayor W. B. Brinton announced himself a candidate for the demolition of the Chicago & Alton railroad in 1916 Wednesday. He is a close personal friend of Governor Dunn. He was United States marshal for the southern district of Illinois during Cleveland's second administration.

Alton Employee Promoted.—W. E. Frazier, formerly of Godfrey, who was recently appointed yard foreman of the Chicago & Alton railroad in Bloomington, was promoted the second time in a week, yesterday, when he was transferred to Alton as superintendent of track at that place to succeed E. Sweeney. Mr. Sweeney assumes a similar position at Roodhouse.

Automobile Burns.—An automobile belonging to Miss Evalyn Rummel of San Jose burned up in the road a short distance from her home Thursday. At the time of the start of the blaze Lee Rummel was driving Miss Rummel and a number of her friends to her home. They jumped out and were powerless to stop the fire.

Old Couple Cast Vote.—Mr. and Mrs. James Stamper of Herrick claim to have been the oldest couple in the state casting votes Tuesday. Their combined ages make a total of 164 years. The couple have been married sixty-four years and this was Mrs. Stamper's first vote. Mrs. Stamper was formerly Miss Rebecca

Shelton of near Springfield, Mr. Stamper is a Methodist minister. Pastor Has Smallpox.—Rev. Maltman, a former pastor of the Christian church at Barry, has the smallpox. He has recently accepted the pastorate of the church at Clarksville and was preparing to move. He had been visiting among his friends in Barry for several days. He was not feeling well and finally broke out with smallpox.

Illinois Fish Law.—The fish preservation law of Illinois prohibits the sale of any kind of fish caught in Illinois waters from May 1 to July 1. This applies to all native fish, of whatever kind, and includes the meek and lowly carp.

One may catch all the fish he can get with pole and line during the closed season, but he may not use a net or seine of any kind, and the fish he catches he cannot sell to anyone, under penalty of the law.

Elections Saturday.—An election for president and members of the township high school district of New Berlin and Island Grove townships will be held Saturday, from 1 to 5 p. m., and ballots may be cast at polling places in Berlin and New Berlin. But one ticket has entered the field and J. C. McMillan heads that for president. J. T. Henney and August Kumble are candidates for members for one year; W. W. Foutch and W. M. Pfeiffer for two years; and William D. Jabsen and John Erickson for three years.

Married in Virginia.—Charles Edward McConnell, aged 21, and Miss Olive Minnie Barbee, aged 16, both of Virginia, were married Tuesday at the home of the bride, the ceremony being said by the Rev. George W. Boyd, of the Holy Nazarene church. The bride, being under age, had the consent of her father, W. S. Barbee. The groom is a worker in concrete with the J. H. Pratt force, and the young people will make their home in Virginia.

New Township High School.—The so-called Girard township high school has at last got down to business. This high school district was organized in the spring of 1913, under the 1911 act, but its legality was challenged and contested by legal proceedings so that heretofore, it has not actually been running the high school, but has been awaiting the outcome of the litigation. That having been settled in favor of the district, it has at last begun to perform the function for which it was organized. It has taken over the Girard high school.

OVER-STOCKED SALE

We have decided to reduce this overstock quickly without further delay, and therefore have cut deeply into the prices on all our beautiful Spring Suits, Coats, Millinery, Waists, Skirts, etc. The sale is by far the most stupendous event THE EMPORIUM has ever conducted. The goods will be recklessly sacrificed at prices that actually do not cover the cost of making. The stock simply must reduce at once and we have applied the price-cutting knife with vim and vigor. We cannot over-estimate the importance of this sale. Our store will be packed and jammed to its capacity. Many extra sales people have been engaged to wait upon the crowds. We urge you to come early. It is only natural that the earliest buyers will have the best selections.

MILLINERY

\$4.00 Genuine Panamas, sale price \$1.10
\$1.98 Untrimmed Shapes—Newest styles—all colors—during this sale at 79c
\$4.98 Trimmed Hats—Over 35 different patterns—all beautifully trimmed—sale price \$1.00
\$6.98 Trimmed Hats—Hemp, lilies, leghorns, etc.—all colors—sale price \$1.98

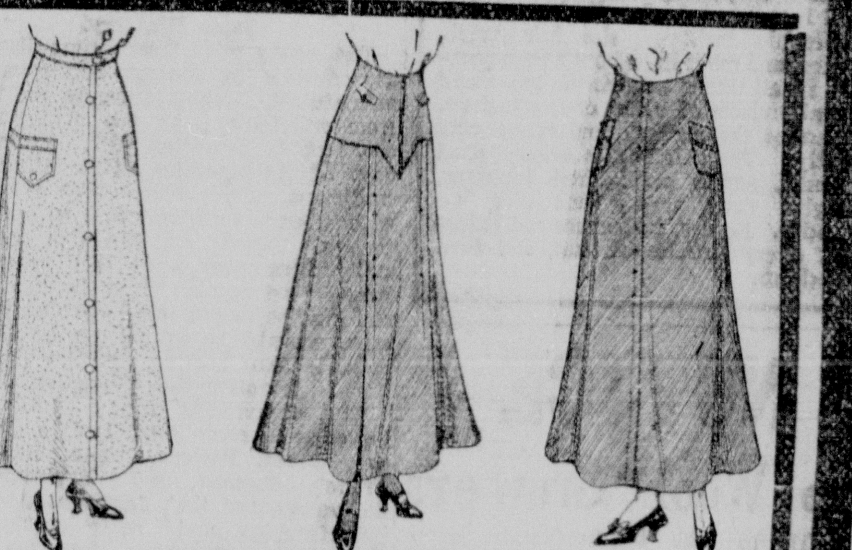

COATS

\$8.50 Novelty Mixture Coats—Black and white checks and waffle cloths—sale price \$3.98
\$9.98 All-wool Serge Coats—In all colors—newest styles—sale price \$4.98
\$10 White Chinchilla Coats—Also White Serges and diagonals—all styles—sale price \$6.98
\$12.50 Gaberdine Coats—Wool poplins, silks, etc., all colors and sizes—sale price \$7.98
\$15.00 All-wool Gaberdine Coats—Silk lined, all colors and sizes—sale price \$9.98
\$22.50 All-wool Poplin and Silk Coats—All colors and sizes—sale price \$12.98

SUITS

\$6.50 to \$8.98 All-Wool Suits—Newest styles—all colors and sizes—sale price \$3.99
\$10 All-wool Serge Suits—All colors and sizes—sale price \$4.98
\$12.50 Novelty Checked Suits—Black and also other colors—sale price \$5.98
\$15 Bedford Cord Suits—Latest spring styles—in all colors and sizes—sale price \$7.98
\$11.50 All-wool Poplin Suits—Also silk poplins, gaberdines, etc., exquisite styles—sale price \$9.98
\$22.50 Gaberdine Suits—All colors and sizes—sale price \$12.98
\$27.50 Silk and Poplin Suits—all colors and sizes—sale price \$17.50

SKIRTS

\$3.00 Cloth Skirts—Black and white checks, covers, serges, etc.—sale price \$1.49
\$7.50 All-wool Skirts—Poplins, serges, silks, etc.—all colors—sale price \$2.98
\$8.98 New Silk Skirts—Taffetas, silk poplins, etc.—all colors and sizes—sale price \$4.98
\$2.50 New Wash Skirts—In advanced styles, in all the latest materials 98c

HOUSE DRESSES

Pereales, Calceos, etc.—all colors and sizes including extra sizes—\$2.50 values. Sale price 98c

\$2.00 values—sale price 98c
\$1.00 values—sale price 49c

Up to \$2.48 values. Beautiful new spring styles—Hemp with Salla Tops 98c

Two in one dress—can be used as a Middy or a Dress. \$1.50 values—sale price 69c

\$2.00 values. All colors 49c

Pereales and Gingham, all colors and all sizes—75c values—sale price 29c

All the latest styles. All sizes up to \$1.50 values. Sale price 49c

DRESSES

\$6.50 All-wool Serge Dresses—All colors and sizes—during this sale at \$1.00
\$7.50 Silk Poplin Dresses—Newest styles, all colors and sizes—sale price \$3.98
\$8.98 New Silk Dresses—Crepe de chine, messalines, foulards, etc., all colors—sale price \$4.98
\$10 New Silk Dresses—Latest spring style effects—colors and sizes—sale price \$5.98
Party Dresses—\$15.00 and \$18.00 values. Sale price \$6.98

Amoskeag Gingham, also Flowered Crepe Waists. Over 75 styles—all sizes—\$1.00 values 28c

All-over Eyelet Embroidered Dresses—Also Mercerized Embroidered Lingerie—\$2.50 values 99c

All wool. \$1.50 values—sale price 49c

Just 20 dozen—all colors and sizes—75 great bargains 25c

All sizes. \$3.00 values. Sale price 98c

Satin trimmed. All sizes. \$2.00 values—sale price 98c

Wool and Silk, worth up to \$4.00—sale price \$1.00

Mothers Tell of Mother's Friend

Experience is or should be our best teacher. Women who have obeyed the highest and noblest of all sacrifices, the struggle for the life of others, should have a better idea of helpful influence than those who theorize from observation. At any rate when a prospective grandmother urges her daughter to do as she did—to use "Mother's Friend," there is ample reason to believe it the right kind of advice.

"Mother's Friend" is an external application for expectant mothers. Its purpose is to furnish pliancy to the muscles, to take away the strain on the cords and ligaments, to relieve the tension of nerves and tendons so apt to provoke or aggravate nausea, morning sickness, twitches of the limbs and so on.

Although, in the nature of things, a woman would use "Mother's Friend" but rarely, yet so effectively has it been found that this splendid remedy is on sale in most drug stores throughout the United States. It has been prepared by Bradford Regulator Co., 206 Lamar Bldg., Atlanta, Ga., and advertised by us for over forty years. This is a fine record for such a special remedy and the grateful letters received testify to the fact that as appreciative as were those of years ago notwithstanding that methods are supposed to have greatly advanced. Ask at the drug store for a bottle of "Mother's Friend." It is worth while.

What is said herein of "Mother's Friend" is but a repetition of the thoughts expressed by thousands of happy mothers who have successfully used this splendid external application.

DON'T WASH YOUR HAIR WITH SOAP

When you wash your hair, don't use soap. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulified coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

NOTICE To Wool Growers

Will pay the highest cash price for your wool. See us before selling. We furnish wool bags and wool twine free to our customers.

Office—Either phone No. 9.
Residence phone, Ill. 1338.

KILL CATARRH GERMS AND STOP CATARRH

Breathe This Antiseptic Dry Air in Your Own Home and Quickly End Catarrh, Coughs and Croup.

One of the surest signs of catarrh of the head, nose and throat is catching cold easily. When you have catarrh the mucous membranes are inflamed, swollen and sensitive and a slight draft or sudden change of temperature at once sets you sneezing, snuffling and wiping your nose. Then again while these delicate tissues are in an inflamed state the catarrhal germs sneezed out and coughed up by other sufferers find quick and easily lodgement in your affected nose and throat and immediately start eating their way into your raw sore organs. Then your catarrh gets worse and you wake up mornings with tongue thick, mouth sticky and nose all stopped up.

Catarrh can be overcome and the germs of catarrh destroyed if you will go to Coover & Shreve or in fact in other drug store and ask for a large complete Hyomei (pronounced High-o-mei) treatment, consisting of a bottle of the oil of Hyomei and a small hard rubber inhaling device.

You put a few drops of the Hyomei oil into this inhaler and then put it between your lips and breathe naturally this pleasant, antiseptic healing air of Hyomei way into your nose, head, throat and lungs. In three minutes your air passages are cleaned out, you breathe easily and the discharge stops and if you will do this every day for a few weeks you will drive every catarrh germ and every symptom of catarrh entirely from your system.

Hyomei, when used with this inhaling device is always sold with the positive guarantee that it must give you successful results or you can have your money back—Advertisement.

DON'T TAKE CALOMEL.

Instead of dangerous, salivating Calomel to liven your liver when bilious, headachy or constipated get a 10-cent box of Cascarets. They start the liver and bowels and straighten you up better than nasty Calomel without griping or making you sick.—Advertisement.

COMMUNICABLE AND INFECTIOUS DISEASE

PUBLIC WIDELY INTERESTED IN MEDICAL TOPICS.

Experiments With Micrangium of Disease, Creation of Pathogenic Bacteriology and New Methods of Invention Have Made Effective Weapons Against Decay.

(By John M. Dodson, M. D., In University of Illinois Health Series.)

No one who reads current literature can have failed to note the wide spread and increasing interest of the reading public in medical matters as evidenced by the large amount of space devoted to articles in medical topics, such as the diseases we know to be preventable in large measure by individual or community effort. The communicable or infectious diseases offer the most certain prospects of effective control and it is therefore, of special importance that intelligent men and women should have knowledge of them.

What are they? What causes them? What are the proofs at hand of the relation of cause to effect? When and how are the infectious conveyed from one to another? How can they be avoided by the individual or by the community? What steps must be taken if we are to lessen and finally, perhaps, to abolish these infectious diseases from the world? There are some of the questions which present themselves in this connection.

An Infectious Disease. An infectious disease is one which, due to the invasion of the body from without by a minute living parasitic organism, is transmitted from one person or animal to another by various means, and which can arise in no other way.

It is due, then, to the invasion of the body from without by living micro-organisms.

Some History. The conception that some diseases are caused by minute organisms or animalcules, which invade the body from without, is by no means modern, but is centuries old. From the days of Hippocrates, the father of medicine, scarce generation has passed without its advocates of such a theory. Boyle, an English chemist and philosopher, over 200 years ago voiced the opinion that fermentation and putrefaction, and probably disease, would be found to be due to animalcules floating in the air.

Pasteur the Chemist.

The convincing proof of this fact, however, came just half a century ago, when Pasteur, the immortal French chemist, and experimenter, demonstrated that fermentation and putrefaction could only occur when the germs of these processes were permitted to enter the fermentable substances from the air. His suggestion that similar germs were the cause of suppurative and gangrenous wounds, conditions which have made the mortality from wounds received in battle or at the hands of the surgeon, simply appalling—led the late Sir Joseph Lister to the discovery of those methods of procedure Antiseptic surgery—which have revolutionized modern surgery and immensely enlarged its possibilities. Further studies of Pasteur in connection with the destructive fermentation of wine, a destructive disease of the silk-worm, his discovery of the germs which cause chicken cholera—a disease of fowls, of cholera, a disease of sheep, were followed by the discovery of the bacillus of tuberculosis by Robert Koch in 1882, of the germ of cholera by Koch in 1884, of the bacillus of diphtheria by Klebs and Loeffler in 1884, of the germ of typhoid fever by Eberts in 1887, and, later, of the cause of other infections by different observers. At the present time we are able to see, to handle and to experiment in the most accurate way, with the germs which cause a long list of diseases among them, tuberculosis, diphtheria, cholera, typhoid fever, pneumonia, tetanus or lock jaw, cerebro-spinal meningitis, infantile spinal paralysis, measles, the plague, leprosy, two varieties of dysentery, anthrax, glanders, actinomycosis, histomycosis, relapsing fever, and the three principal venereal affections. In several other affections the morbid germ has probably been discovered though the proofs are not so absolute, among these are mumps, whooping-cough and inflammatory rheumatism. There remains a considerable group of diseases, obviously infectious where cause has so far escaped the most arduous and long continued search by numerous observers throughout the world, among them smallpox, chicken-pox, measles, German measles, scarlet fever, and hydrophobia.

The proof that each of the above diseases is really caused by the invasion of the body by its specific germ, is as conclusive and convincing as any experiment in physics or chemistry.

This discovery of the actual causes of some of the infectious diseases, the invention of methods by which we are able to see and to handle, to experiment at will with these micrangium of disease, the creation of pathogenic bacteriology, has not only given to medicine new and effective weapons against disease, but it has changed the whole aspect of medical science and practice. For speculation and guess work it has substituted in large measure the methods of scientific exactitude, and it is this change of attitude and method which have made possible a progress in medicine in the last half century which surpasses that of all the previous centuries.

INVESTIGATE RADIUM AS A FERTILIZER

ILLINOIS EXPERIMENTS SHOW LITTLE VALUE AS CROP STIMULANT.

Great Claims Made for Radio-Active Materials When Science Found New Element—No Appreciable Effect on Yield is Determined in Two-Year Trial.

(By Cyril G. Hopkins, Chief in Agronomy and Chemistry, and Ward H. Sachs, Associate in Chemistry.)

With the discovery of radio-activity by Becquerel in 1896, and of radium itself by M. and Mme. Curie in 1898 science revealed a property of matter and a source of energy hitherto unknown; and the facts already established, the predictions or claims made, and the general interest in the subject, seemed to justify an investigation under field conditions of the possible value of radium as a fertilizer, or a radio-activity as a crop stimulant.

Illinois Experiments.

In the spring of 1913, through the kindness of the Standard Chemical Company of Pittsburgh, the University of Illinois Agricultural Experiment Station was enabled to begin a series of field experiments with radium as a fertilizer or crop stimulant. This company reported 1500 tons of uranium-radium ore (carontite) as the annual product from its Colorado mines, and was said to be the only concern manufacturing radium salts in America. The company was deeply interested in having the experiments conducted, and the radium salts furnished to us were prepared under the direction of Dr. Otto Brill and Dr. Charles H. Viol of the radium research laboratory of the Standard Chemical company, the quality and strength of the preparations being thus assured.

Since the "radium plots" were made to run crosswise over other regular experiment plots, these investigations were conducted without interfering with our other experiments, and at small extra expense, chiefly for taking weights of produce "in both directions" the expense of applying the radium having been borne by the Standard Chemical company.

Cost of Application.

The value of radium is about \$100 per milligram; and it may well be noted that it takes 453,600 milligrams (453.6 grams) to make one pound. The total amount of radium thus far secured in all the laboratories and factories of the world is estimated at eight grams or less than one-third of an ounce.

In order that the field investigation might have direct relation to practical Illinois agriculture, the radium was used at 3 rates of application, costing, respectively, \$1, \$10 and \$100 per acre; or in amounts of .01 milligram, .1 milligram, and 1 milligram of radium per acre. If the effect of the applications per acre would be desirable.

The fields selected for these experiments were the north division of the Series 200 and the south division of the Series 600 of the Agronomy plots on the South Farm of the University of Illinois. Each of these fields contains eighteen fifth-acre plots, two rods wide and sixteen rods long, besides some division and border strips, making each field sixteen rods wide east and west, and thirty-eight rods long north and south. For the radium experiments each field was divided transversely into eight plots two rods wide and thirty-eight rods long, numbered one to eight, from west to east. No radium was applied on Plots 1 and 5; where applied, the rates per acre were .01 milligram on Plots 2 and 6; .1 milligram on 3 and 7, and 1 milligram on 4 and 8.

On Series 200 and on the west part of Series 600, the radium was applied in a solution of radium bromide diluted with distilled water, the check plots receiving the same quantity of distilled water without radium. On the east part of Series 600, solid radium barium sulfates were applied after being diluted by thorough mixing and pulverizing with dry soil from the field, the check plot receiving the same weight of soil without radium. The pulverized soil was applied with a force-fed grain drill, and the solutions with an Aspinwall barrel sprayer. For the heaviest applications, only 528 cubic centimeters of the solution of chloride and 770 grams of the sulfates were required per acre, amounts which are too small to produce appreciable indirect effects, such as might possibly be caused by 100 pounds or more of crude salts per acre. On both fields corn was grown in 1913 and soybeans in 1914.

Trustworthy Data.

The results with soybeans on Series 200 in 1914 agree within narrow limits, in showing no benefit from the radium applied the year before, the west half of the field giving slightly smaller and the east half slightly larger average yields where radium was added than on the check plots.

On series 600 the average yield of corn in 1913 were slightly larger with two kernels per hill and slightly smaller with three kernels per hill where radium was applied but the apparent gains and losses are all well within the experimental error or plot variation, and the general average indicates no effect from the radium. The yields of soybean seed on the north half of this field in 1914 likewise reveal no influence

from radium, all rates of application indicating, on the average, slight decreases for radium on the west side and slight increases on the east side of the field. With the soybean the six general averages show no effect from radium, four results being slightly below the checks and the other two slightly above.

Thus from the two years' work we have six trustworthy average results with corn, three "for" and three "against" radium, and we have averages with soybeans, nine "for" and nine "against" radium. In all of these trials the average variation from the checks is so slight and so evenly distributed, "for" and "against", as to lead only to the conclusion that radium applied at a cost of \$1, \$10 or \$100 per acre produced no effect upon the crop yields either the first, or second season.

MOISTURE RELATION OF SOIL AND CORN

Results Obtained by Demonstrations of Damage by Weeds, Value of a Seed Bed, Effects of Cultivation on Moisture and Temperature—Table Given of Two Experiments.

(By J. G. Mosler, Chief in Soil Physics, University of Illinois.)

In a previous article we spoke of the importance of keeping down weeds.

That continuous cultivation of corn is not necessary for conservation of moisture was shown by some experiments begun by Professor G. L. Morrow at the University of Illinois in 1888. Where weeds were kept down by scraping with a hoe the yield was 69.1 bushels per acre, as a 7-year average, while four or five shallow cultivations gave 79.8 bushels, an increase of only 1.7 bushels. During the same time deep cultivation gave 68.6 bushels per acre, or 2.2 bushel less than shallow cultivation.

Another feature of the experiment by Professor Morrow was the pruning of the roots of corn, somewhat similar to what is done by ordinary cultivation. Two plots were given shallow cultivation. On one the roots were pruned 6 inches from the hill to a depth of 4 inches, and the yield was lowered 11.6 bushels per acre. On two other plots where the weeds were kept down by scraping with a hoe, the one plot had the roots pruned similar to the preceding, and the yield as diminished 17 bushels per acre.

These results obtained by Professor Morrow seemed so remarkable that in 1906, a series of experiments was begun to demonstrate them and at the same time add some new features, namely the damage by weeds, the value of a seed bed, the effect of cultivation on moisture and temperature, the value of irrigation and of abundant addition of plant food. The results of these experiments are given in Table 1.

(For lack of space we do not give returns for each year)

Table 1. Results of Tillage of Corn. Each is an average of two plots. Bushels per acre.

Treatment, 6 year average, 8 year average, average per cent of No. 4 are as follows:

1. Not plowed nor cultivated. Weeds kept down by scraping with a hoe—33.0, 31.4, 75.4.

2. Plowed, seed bed prepared, no cultivation. Weeds kept down by scraping with a hoe—47.3, 45.9, 115.3.

3. Plowed, seed bed prepared, weeds allowed to grow—5.3, 7.3, 18.3.

4. Plowed, seed bed prepared, weeds allowed to grow, irrigated—29.4.

5. Plowed, seed bed prepared, cultivated, irrigated—52.3, 47.7, 119.8.

6. Plowed, seed bed prepared, cultivated, irrigated, fertilized—76.2, 189.2.

(Compare No. 4 with its yield of 42.9 and 40.4 bushels whose treatment is one that is generally employed with No. 2 with its yield of 47.3 and 45.9 bushels. No. 2 had no cultivation, weeds kept down by scraping with a hoe. This is surprising.)

In these experiments, a four-year rotation of corn, corn, oats and clover was practiced.

The soil is a brown silt loam, the ordinary corn belt soil, and had been under cultivation for fifty years or more. During this time no fertilizer had been applied with the possible exception of farmyard manure.

The corn stalk and both crops of clover have been removed. In 1912 and 1914 soybeans were grown because of the failure of clover. The cultivation was done with the 3-shovel cultivator until 1912 and since then the surface cultivator has been used.

The fact that uncultivated corn produced so well in comparison with the cultivated, and with the cultivated and irrigated, shows that cultivation for conservation of moisture is a very secondary consideration in this climate and on that type of soil. The explanation of the increase in Plot 2 over 4 is that the crop was enabled to use all of the plowed soil in No. 2 as a feeding ground while in Plot 4 almost half of the plowed soil was disturbed by cultivation, so that the roots of the corn were either injured or could not develop in it to any extent because of the dry loose character. This was especially true during dry seasons. As a result the plant food in the stirred soil was of little benefit to the crop, and the conclusion that must be drawn is that it contains than for the conservation of moisture.—Abstract of an Address.

Oil Your Dirt Roads

Standard Asphalt Road Oil will lay the dust and build up your roads. An oiled road is far superior to a paved street.

Oil Your Brick Pavement

Non-Asphaltic Road Oil on your brick pavement kills all germs and settles the dust for the entire season. As cheap as water sprinkling and far better. Let us settle your dust problem before the dust gets here.

National Gas Range Week

Commences Next Monday—IT'S THE BIRTHDAY OF

THE FIRST GAS RANGE

Fifty-one years ago the first gas range cooked its first meal. It didn't look much like the wonderful new gas ranges of 1915. It was clumsy—imperfect—but even at that it quickly proved its superiority over other ways of cooking. Next week will be celebrated all over the country as National Gas Range Week, in honor of this father of all gas ranges.

Won't you help us celebrate Gas Range Week by coming in to see our exhibit of the new Gas Ranges?

Whether you are thinking of buying a new gas range or not, we want to show you the wonderful improvements that have been made in gas ranges in the last few years—changes that make it more than ever the ideal stove for home cooking.

It will only take a few minutes of your time, and we know you'll find it interesting.

Origin of the Periwig.
The perwig, which played so important a part in the toilet of a man of fashion during part of the seventeenth and eighteenth centuries, owed its origin to Louis XIV. of France. When a little boy he succeeded to the throne at five years of age he possessed a profusion of remarkably beautiful waving curls which fell in clustering curls over his shoulders. The courtiers imitated the boy king by having heads of false hair to imitate his natural locks, and when Louis grew up he adopted the perwig himself.

During the reign of William and Mary periwigs were worn in exaggerated dimensions, and the beaux used to comb their wigs in public with special combs of ivory and tortoise shell, which became at last quite indispensable to these fine gentlemen.

F. C. Sweat of St. Louis, traveling freight agent of the N. C. & S. & L. R. Co., was a visitor at the local railroad offices Thursday.

WORLD'S MARKET NEWS

LARGER EXPORT BUSINESS HELPS BOLSTER WHEAT PRICE

Effects of Fresh European Buying Show Themselves in Last Half of Session and Particularly During the Final Hour.

Chicago, April 22.—Larger export business than has been done for some time helped today to bolster the price of wheat. After much wavering the market closed nervous at 1/2c off to 3/4c up compared with last night. Corn finished in shade to be lower; oats 1/2c down to a sixteenth advance and provisions varying from 5/8 to 7/8c decline to a rise of 2 1/2c.

What was stimulated first by reports that stocks in Great Britain and on passage to that country had recently dropped lower than at any corresponding time in ten years and that no matter how large the United States crop might be the wheat would all be wanted in Europe. Generous rains in the drought district east of the Mississippi however, tend unlooked for assertions that spring seeding had been 90 per cent completed in the Dakota and Minnesota states started a wave of selling which received further impetus from the decidedly bearish aspect of the official report on the condition of the growing crop in Kansas. Effects of the fresh European buying of wheat showed themselves in the last half of the session and particularly during the final hour. The seaboard estimated that the day's sales in all positions aggregated more than 2,000,000 bushels including purchases of new crop winter wheat. September options here were bought both on direct foreign orders and also by houses that generally act for the seaboard. Corn manifested a sagging tendency most of the time despite the rallying power displayed by wheat and in the face of bullish cables and a good cash demand. Increasing offers from the country formed a weight on the market. Plentiful moisture eased off oats. Some export call developed but not enough to bring enthusiastic response.

EUROPEAN WAR NOTES

Vienna, via London, April 22.—(10:15 p. m.)—The following official communication was issued today: "In Russian Poland and Western Galicia isolated artillery engagements are reported. On the Carpathian front fresh attacks against our positions on both sides of the Uzok Pass were repulsed. In these violent attacks which were stopped partly by our artillery and partly by counter-attacks by our infantry, the enemy suffered heavy losses before our positions at the top of the pass which was attacked several times."

MRS. THOMSON TELLS WOMEN

How She Was Helped During
Change of Life by Lydia E.
Pinkham's Vegetable
Compound.

Philadelphia, Pa.—"I am just 52 years of age and during Change of Life I suffered for six years terribly. I tried several doctors but none seemed to give me any relief. Every month the pains were intense on both sides, and made me so weak that I had to go to bed. At last a friend recommended Lydia E. Pinkham's Vegetable Compound for what it has done for me, and shall always recommend it as a woman's friend. You are at liberty to use my letter in any way."—Mrs. THOMSON, 849 W. Russell St., Philadelphia, Pa.

Change of Life is one of the most critical periods of a woman's existence. Women everywhere should remember that there is no other remedy known to carry women so successfully through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

COUNTY TEACHERS IN FIRST SESSIONS

MANY MEMBERS OF ASSOCIATION IN ATTENDANCE.

Splendid Addresses Heard Throughout the Day and Musical Program Given at Night by Faculty of Woman's College.

The sessions of the Morgan County Teachers' Association were well attended yesterday in the David Prince building and the character of the gathering was one which was calculated to make a resident of Morgan county proud of the instructors in the public places of learning. The music in the morning by the high school orchestra under the direction of Fred Goodrick was excellent. The entire program was well prepared and consisted of numbers of value, the only criticism offered being that there was almost too much of good things crowded into one day. President J. H. Dial of Murrayville ably presided and called on Rector H. R. Neely of Trinity Episcopal church to offer prayer which was followed by the Lord's Prayer in concert.

The Open Air School.
Miss Katharine Olmsted then gave a highly interesting talk on the open air school and a few extracts of that and the other able addresses are given.

The rule in Jacksonville is that children must be examined with or without the consent of the parents who are notified of any defect and asked to consult the family physician. Of 2176 children examined, 1489 were found defective in some respect. These were reported to the parents and 1116 were treated by the family physician. In many cases eyes were defective and in some instances spectacles were recommended. To homes the professional nurse paid 1812 visits with generally good results. In many cases parents were unable to supply treatment and a free clinic was started and patronized by many.

In 43 per cent of the territory of our country where statistics were secured there were of school children 12,229 deaths in a year from tuberculosis; accidents, 11,813; diphtheria 605; typhoid fever, 5,455; heart disease, 4,096; scarlet fever, 3,481; pneumonia, 4,096. In Jacksonville 75 children were found affected with tuberculosis through the system of school inspection; the country needs inspection as much as the city; in proof of this I will say a country school of average pupils, seemingly healthy and all right and containing 22 pupils, 11 were found sub-normal; some had defective eyes; some adenoids; some defective ears and so on. Inspection takes but little time from regular work and surely is wise.

The Passion Play.

The next number was a fine address by Rev. R. O. Post, D. D., pastor of the Congregational church, on the Passion Play at Oberammergau. The gentleman had been there twenty-five years ago and gave a vivid account of that wonderful affair. He emphasized the fact that he spoke, not for the entertainment of his audience but rather to impress the deep truths so remarkably illustrated in that play. He was glad to speak to the instructors of the county for a school teacher should be a living epistle, known and read of all men for the sad fact remained that the home had become very lax in child training and the small time given to spiritual culture on Sunday was not enough; hence the all importance of the work of the school teacher.

It was in 1633 that a visit of the plague decimated so many places and in this little hamlet it did its deadly work and the simple minded, devout people made a vow that if they were exempt in the future from its ravages they would each ten years produce the representation of our Lord's passion and they have kept their word with two exceptions when war prevented. Anywhere else the production would be blasphemy but in that place the main knowledge of the bible was gained by representations given by strolling monks so that the presentation is a solemn act by these people. They inherit devoutness from their ancestors and the speaker believed that heretofore was about 99 per cent in the formation of character.

Thursday Afternoon.

The first address of the afternoon was by Rev. Myron L. Pontius, pastor of the Central Christian church, whose subject was "The Twentieth Century Man." He said in part: Each age has its peculiar man and in speaking of the twentieth century man I used it in the sense of both men and women. There are four things which stand out prominent as to the 20th century man. (1) Moral Stamina. A man can scarcely go into any line of work today and be a policy man. He who is in law, medicine, teaching or other professions, should do so from the good that can be accomplished for mankind. The present war is an example of selfishness and the greed for money. In America we have questions of great import which demand a stamina equal to the best there is in us if we are to solve these knotty problems. (2) Optimism. Everyone should be optimistic, not exactly live in the blue heavens but should have faith in humanity and believe that better and higher things would finally triumph. The final victory for humanity was the goal to be coveted. (3) Patriotism. Not the patriotic in its narrow sense but that uplifting and uplifting force which moulds and shapes our highest ideals. (4) Philanthropy. The 20th cen-

tury is characterized by the great brotherhood of man, not a brotherhood in one little spot of the globe but that which encircles the world, a spirit which desires only the best things for all people.

Prof. O. L. Manchester.

The second and last address of the afternoon was by Prof. O. L. Manchester, of the State Normal University, Normal, Ill. His address was on "The Public School teacher and the Social Problem." He spoke in part: "The public school teacher should change his teaching to keep in touch with the 20th century. The 18th century was spent in discoveries and the 19th century in building up individual fortunes. We should be utterly ashamed of a condition that would permit one man to own nearly a billion dollars. We should not give so much time on wars as far as details of battles, names of presidents, sizes of states, location of rivers, etc., but more time to the effect all these things have on humanity. In our teaching we should study the tariff question. How many administrations this question has come up and how very few of the students can discuss it intelligently. When the money question was up a few years ago how much was it taught in the public schools or colleges? Students should know more about our money systems. Divorce, labor laws, sweat box systems were given a thorough discussion. Problems such as Jane Addams and Graham Taylor of Chicago are studying out, all economic and sociological problems should be more thoroughly understood, they make for better citizens."

Taxing System Disgrace.

"How about the teaching of arithmetic in the grades? The teacher should know something about the taxing system. Our taxing system is a disgrace to the civilized world. All Europe has changed their taxing system except one country. Under our system the poor and honest pay taxes and the rich and special privilege classes pay in part and some not at all. One man in Chicago is devoting his entire time fighting tax dodgers. We must change our ideas in so far as not to try to injure each other in work but do that which is a benefit to a general plan. The teachers' duty is to vitalize all the different subjects." The speaker related the experience of a girl who went from Jacksonville to attend the Normal school and after studying on social problems changed her mind from being a teacher to a social worker. Humanity is nearer reached by studying along the lines of especial interest to the race.

Complimentary Concert.

There was a large attendance at the complimentary concert given by the Faculty of the Woman's college of Music last night in Music hall, in honor of the teachers. The reputation of the college in the musical

life of the large territory it includes was fully upheld and those taking part were asked for encores and the appreciation of the audience was most evident. The program follows:

Organ—
Priore a Notre Dame
Minuette Gothique Boellmann
Henry V. Stearns.
Reading—
Cutting from "If I were King,"
..... Mabel Louise Gleckler.
Voice—
My Heart at Thy Sweet Voice, from
Samson et Dalila St. Saens
Florence Pierron Hartmann.
Violin—
Adagio Lalo
Rosalind M. Day.
Piano—
Chanson Neapolitaine St. Saens
En Automne Moszkowski
Valse Triste Sibelius
Jean DeMuth.
Reading—
The European Travelers
..... Mary Stewart Cutting
Miss Gleckler.
Voice—
Beautiful Land of Nod Lehman
The Snake Charmer Lehman
Mme. Hartmann.
Violin—
Serenade Arensky
Andantino Kreisler
Gavotte (old style) Gossec
Mrs. Day
Organ—
Grand March from Aida Verdi
Mr. Stearns.

WILL LAUNCH MERCHANTS' SERVICE COMPANY.

The Merchants' Service Company is the name of the new company which is to open up on East State street, on or about May 1st. The purpose of the company is to give quick delivery service to the dry goods stores, clothing merchants, meat markets and all other business houses and the general public. The motto of the company is to give maximum service at a minimum cost. The merchants of Jacksonville have felt a need of a service of this kind for some time in the past. It is to be operated by local citizens.

IMPORTANT SPECIAL OFFER

TO READERS OF THIS PAPER
Any person desiring a copy of The People's Common Sense Medical Adviser before the edition is exhausted should send this notice together with three dimes or stamps, to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., and a copy will be sent by return mail, all charges prepaid.—Adv.

WHY HAIR FALLS OUT.

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Danderine at any drug store, pour a little in your hand and rub well into the scalp. After a few applications all dandruff disappears and the hair stops coming out.—Ad.

LET US DO YOUR BAKING

During the warm days of spring and summer you will find it much pleasanter to let us do your baking. The cost will be no more. Your grocer sells Franks' baking products. Our Bread, Cakes, Pies, are all of known good quality.

Read and Be Wise

and you will see for yourself what Henry Ford has to say to C. N. Priest the Ford Man, and other Ford Agents, authorizing him or them to say to the public the following, which has to do with the refund on Ford Cars for the year 1915.

This Is The Most Important

Advertisement C. N. Priest has ever caused to be printed, and is as follows:

The Ford Company announced last year—as you will remember—that is their total sales reached 340,000 cars between August 1, 1914, and August 1, 1915, each purchaser during that period would receive back a refund of \$40.00 to \$60.

"Mr. Ford," I suggested, "Is there anything I can say to our people with regard to the Ford Motor Company's 350,000 car rebate plan."

"We shall sell the 300,000," was the quiet reply—"and in 11 months a full month ahead of August 1st."

"Then the refund is practically assured?"

"Yes—barring the totally unexpected. We are 50,000 to 75,000 cars behind orders today. Factory and branches are sending out 1,800 daily."

I then said to Mr. Ford: "If I could make a definite refund statement we would increase our local sales 50 cars."

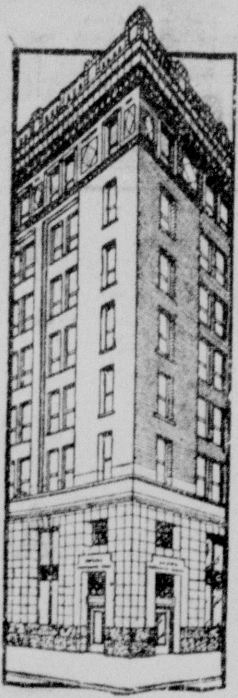

"You may say," was Mr. Ford's deliberate and significant reply to this—"You may say that we shall pay back to each purchaser of a car between August 1, 1914, and August 1, 1915, barring the unforeseen the sum of \$50. You may say that I authorized you to make this statement."

What can I add to the above? \$15,000,000 cash coming back to Ford owners! And to prospective Ford owners up to August 1, 1915, it actually means—Ford Touring Cars for \$490—less the \$50 rebate. Ford Runabouts for \$440—less the \$50 rebate. What is there left for me to say?

C. N. Priest left Wednesday for St. Louis to make arrangements to meet a crowd of prospective buyers and friends that were to go down Thursday morning to visit the great assembling plant, where they assemble fifty cars daily, and where at the close of each day each and every car so assembled is either shipped to some dealer or delivered to some retail buyer as soon as assembled. But owing to the heavy rains rendering the roads unfit to drive a new car over he ordered the cars shipped. Consequently the parties did not get to see the plant, nor enjoy the trip back through the country.

Social Activities

Miss Hazel Brown Has Birthday Surprise.

Miss Hazel Brown was given a birthday surprise party last night at the home of her mother, Mrs. C. L. Brown, 625 East State street, the occasion being her seventeenth birthday. The surprise was planned and executed by a number of Miss Hazel's school friends. She was taken up town by her mother early in the evening to attend the picture show and upon her return she found twenty of her friends gathered at her home. They had met in a body at the residence of Mr. and Mrs. Joseph Bourn. It is needless to say that Miss Hazel was much surprised but soon entered into the spirit of the occasion. Games of various kinds were played and music enjoyed. During the evening the guest of honor was presented a beautiful lavalier by her friends, the presentation speech being made by Miss Grace Van Houten. Delicious refreshments were served at the close of the evening's merriment.

Wedding Announcement of Miss Clara Metzger.

Cards have been received announcing the marriage of Miss Clara R. Metzger, daughter of Mr. and Mrs. August Metzger of Pana, Ill., to Mr. Leonard A. Tripp of Assumption. The ceremony took place Wednesday at the home of the bride's parents. They will reside in Assumption. The bride has a number of friends in Jacksonville where she has visited the past two years.

Meeting of North End Social Club.

The North End Social club met with Mrs. Ada Cooper, 836 Cox street Wednesday afternoon. After roll call a program was given. Mrs. Hester Brown and Mrs. M. Steward of the Needle Craft club were guests and made some very interesting remarks. There was a reading by Mrs. Geo. Florence on "The Little Things that Count." In the coin contest Mrs. Mount received first prize and

Mrs. Florence second prize. After all had enjoyed a delightful time light refreshments were served. The next meeting will be with Mrs. Florence.

Entertains for Mrs. Elizabeth Wood.

Mrs. Albert Curry entertained Thursday afternoon in honor of Miss Elizabeth Wood, at the home of Mrs. A. A. Curry. It was a kitchen rush and sewing and games also were played during the afternoon. The house was decorated in spring flowers. A novel feature of the afternoon was that each guest gave Miss Wood a live little chicken. Her marriage to Mr. George Hardwick of Merritt is to take place the latter part of May. The following were among those present: Mrs. Carrie Crum, Mrs. Roy Dyer, Mrs. Joseph Jackson and daughter Helen, Mrs. Charles Caldwell, Mrs. Iven Wood, Mrs. Ernest Wood, Miss Minnie Coultas, Riggston and Mrs. Mary Beekman.

W. N. Hairgrove Has Birthday Celebration.

Attorney W. N. Hairgrove celebrated his 49th birthday Thursday by giving a supper to a number of his Elk friends in the Elks club rooms. The time was spent socially with impromptu speaking and Mr. Hairgrove was extended many thanks for his thoughtfulness in letting his friends participate in the celebration and all wished him many happy returns of the day.

Thursday Club Met With Mrs. Lair.

The Thursday club met yesterday afternoon at the home of Mrs. Bascom Lair on South Main street. Two new members were voted into the society, Mrs. G. W. Brockman and Mrs. Theodore Graf. A social hour was enjoyed after the business session and light refreshments were served. The next meeting will be held with Mrs. Stout on North Church street.

MUNICIPALITY STATISTICS

Shed Interesting Light on General Subject of Wealth and Taxation.

Washington, April 22.—A special bulletin on revenues, expenditures, and public properties of municipalities having a population of 2,500 and over April 15, 1910, relating to the fiscal year 1913, compiled under the supervision of Mr. Starke M. Grogan, chief statistician in charge of the inquiry, recently issued by Director Sam L. Rogers, Department of Commerce, shows, for the United States as a whole, municipal receipts of \$2,139,244,505, municipal expenditures of \$2,139,435,611, and a total value of municipal properties amounting to \$4,387,047,924. The bulletin is one of a series of seven, all relating to the general subject of wealth, debt, and taxation.

As might be expected, the greatest municipal receipts and expenditures were those of New York City, \$625,432,000 and \$623,197,000 respectively; Chicago stood second, with \$109,827,000 and \$110,922,000 respectively; and Philadelphia was third, with \$65,741,000 and \$65,933,000, respectively.

Receipts and Expenditures for Governmental Purposes.

To obtain a true idea of the relative cost of conducting municipal business in different cities, the comparison must be made on the basis of total and per capita "revenue receipts" and "governmental cost payments." Revenue receipts comprise the amounts received for the use of municipalities; they are derived from taxes, special assessments for street improvements and the like, license charges, fines and forfeits, interest and rents, subventions and grants from the Federal, state, or county governments, donations and gifts from all sources, fees and charges for services performed, earnings of public service enterprises, etc. Governmental cost payments are made up of ordinary running expenses, expenses of public-service enterprises, interest, and outlays, not offset by receipts, for permanent improvements. The total revenue receipts and total governmental cost payments of municipalities of 2,500 and over throughout the United States in 1913 were \$1,108,197,000 and \$1,246,637,000 respectively. The general tendency per capita figures were \$24.26 and \$27.29 respectively. The general tendency of municipalities to live beyond their means is indicated by the difference of over \$128,000,000, or more than \$3 per capita, between their revenue receipt and their governmental cost payments. In fact, in only seven states—New Hampshire, Rhode Island, Indiana, Illinois, South Dakota, Utah and Wyoming—and the District of Columbia were the revenue receipts of the municipalities, taken as a group in each state, in excess of their governmental cost payments.

When the cities are compared on the basis of revenue receipts and governmental cost payments, New York's lead over Chicago, while still great, is found to be somewhat less pronounced than when the comparison is made on the basis of total receipts and expenditures. The total receipts and per capita revenue receipts for these two cities and for the other seven whose population in 1913 was more than 500,000 were as follows, the cities being named in the order of their size.

\$205,480,000; per capita revenue receipts \$39.52. Total governmental cost payments, \$243,208,000; per capita governmental cost payments, \$46.73.

Chicago—Receipts, \$62,429,000; per capita, \$27.06. Payments, \$62,031,000; per capita, \$26.46.

Philadelphia—Receipts, \$46,705,000; per capita, \$24.94. Payments, \$43,312,000; per capita, \$26.54.

St. Louis—Receipts, \$21,602,000; per capita, \$29.86. Payments, \$21,516,000; per capita, \$29.75.

Boston—Receipts, \$34,024,000; per capita, \$7.10. Payments, \$32,553,000; per capita, \$45.06.

Cleveland—Receipts, \$12,984,000; per capita, \$20.85. Payments, \$15,772,000; per capita, \$25.33.

Baltimore—Receipts, \$14,182,000; per capita, \$24.68. Payments, \$18,091,000; per capita, \$31.49.

Pittsburgh—Receipts, \$18,381,000; per capita, \$32.95. Payments, \$18,143,000; per capita, \$32.53.

Detroit—Receipts, \$13,470,000; per capita, \$25.87. Payments, \$15,182,000; per capita, \$29.16.

The smallest per capita revenue receipts for any city of 100,000 or more, \$13.32, were reported from Birmingham, Ala., while the smallest per capita governmental cost payments, \$13.22, were shown by Reading, Pa.

Of the cities of 20,000 or over, York, Pa., had the smallest per capita revenue receipts, \$8.66, while Johnstown, Pa., had the lowest capita governmental cost payments, \$9.47.

In New York the largest item of governmental cost payments—\$55,563,000, or \$13.38 per capita—was made up of outlays for permanent improvements; the next—\$41,274,000, or \$7.94 per capita—represented interest on city indebtedness; and the third—\$35,903,000, or \$6.91 per capita—was expended for maintenance of schools and libraries.

In Chicago the largest expenditure for governmental purposes—\$17,673,000, or \$7.54 per capita—was the aggregate of outlays for permanent improvements; the second largest—\$10,711,000, or \$4.56 per capita—was made for the maintenance of schools and libraries; while the third—\$10,632,000, or \$4.54 per capita—represented the cost of protection to person and property.

Value of Municipal Properties.
The total value of municipal properties at the close of the fiscal year 1913, including the assets of funds other than sinking funds, was \$4,387,048,000. More than one-third of this sum, \$1,507,133,000 represented the value of lands, buildings, and equipment of public-service enterprises. The assets of investment made up of public trust funds amounted to \$289,242,000. The remainder, \$2,590,673,000 represented the lands, buildings and equipment of general departments, as follows: Schools and libraries, \$1,018,528,000; recreation \$967,488,000; general government \$218,984,000; protection to person and property, \$183,493,000; charities, hospitals and corrections \$122,656,000 and all other, \$79,522,000.

The values of city properties in the nine cities of 500,000 or over in 1913 were as follows, the cities being named in the order of their size: New York, \$1,254,108,000; Chicago, \$202,100,000; Philadelphia \$237,242,000; St. Louis, \$70,789,000; Boston, \$175,792,000; Cleveland \$66,394,000; Baltimore, \$50,506,000; Pittsburgh, \$84,919,000; and Detroit, \$55,456,000.

M. E. Greenleaf, John Snyder, Fred Grandjean and Kenneth Bear, all Alexander residents, are attending a state shoot at Shelbyville.

ANNOUNCEMENT EXTRAORDINARY

We are proud to announce to our customers that we are now exclusive representatives of the world-wide advertised MENTOR COMFORT UNDERWEAR. For six days, beginning Monday, April 19th, we will make an EXTRA SPECIAL showing of MENTOR WEAR. A complete assortment of the most perfect fitting, stylish garments ever shown at popular prices.

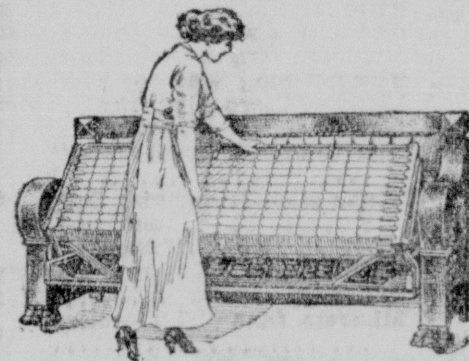

Our latest arrivals in COATS and SUITS for spring attract the attention of particular women everywhere. Assembled from the best of fashion's marts, our display is authentic and suggests selections while the variety is great.

It's Easy to Take

The Butterick School of Dressmaking

JACKSONVILLE is going to have this year the prettiest and the smartest crop of Summer Frocks that ever bloomed hereabouts; and what is more, it's going to be at a very much smaller cost of production than a good many women ever dreamed could be accomplished—all of this, provided that Mrs. A. Milligan, here from New York, to tell us how it's done, has her way. If anybody in the world knows how to show a woman how to make the most of her best points, and how to offset the defects of her figure—if there are any—so that folks will forget they ever existed, it is Mrs. Milligan, for she has had oceans of experience in just this sort of thing, and she comes fresh from the Butterick School of Dressmaking in New York, where such things are being worked out daily, and where there isn't anything new in fashions on this side of the Atlantic or the other that is not immediately reported.

The school Mrs. Milligan is now conducting at Hillerby's store, is only one of many which the Butterick School of Dressmaking in New York sends to various cities every month. Mrs. Milligan has been here over a week already, and she leaves on the third of May. "Now that the first pupils are completing their gowns and showing them to their friends, she remarked, 'more and more women are asking for appointments. I am usually very busy the last two weeks of my stay in any city. I take as many pupils as I possibly can, but the number is limited, because each pupil must get individual instruction.'

We are showing a lot of pretty stuff too. There's a special lot of wash silks and silk stripes worth 50c per yard at a special price 29c yd

PARK COMMISSIONERS HELD BUSINESS SESSION LAST NIGHT

Special Care to Be Given Parks—John DeFrates Employed as Custodian at Duncan Park—Water System for Nichols Park.

The members of the park commission held a meeting last evening and transacted considerable business. It had been the desire of the board to employ Edward Haley as custodian of Duncan park; he had made an application stating price, but had withdrawn it. He was urged to attend the meeting and the endeavor would be to come to some agreement but he failed to appear and John DeFrates was employed.

The contract for the painting of the large pavilion at Nichols park was let to Biggs & Son. Carpenter repair work on the custodian's house and band stand was let to Charles Seymour. Concrete work to put the basement and foundation of the band stand in proper shape was let to Otis Hoffman. A special committee to secure flowers for both parks was appointed with power to act. Attention was called to some flower beds that have been laid out at Nichols park and are very ornamental.

One of the most important items of business transacted was the contract for a water system let to Bernard Gave. It is on the pneumatic principle and is intended to force water to all parts of the park where needed. It is wholly guaranteed and much is expected from it in the summer.

It is the intention of the board to put the new custodian to work at once in Duncan park and keep it in as fine order as possible. Central park will have all proper attention but it is the almost general sentiment of the business men about the square to keep that spot for use rather than beauty. It is the constant desire of the park board to manage its trust so as to afford the greatest good to the greatest number and do justly by all interests.

A petition to permit gun club practice on Sunday was refused. Tentative propositions for amusements were heard. One man wants to make balloon ascensions on certain days and permission was given him to ascend from the park provided he stands all expenses and keeps things about the ascending place in perfect condition.

WOMAN'S RELIEF CORPS.

The Woman's Relief Corps will hold their regular meeting at the G. A. R. hall, W. Morgan street, this afternoon at 2:30. A good attendance is desired.

Mary G. Jordan, Pres.
H. May Jordan, Press Cor.

MORTUARY

Buckley.

Word has been received in the city of the death of William M. Buckley, a former resident of Jacksonville at his home in Champaign, Ill. He was born Aug. 23, 1858 in Boston, Mass., and when a boy went to Atlanta, Ga. From there he came to Jacksonville and while here was employed at the C. P. & St. L. shops. From Jacksonville he went to Pontiac, where he was a machinist in the state reformatory. He went to Champaign in 1914 to get medical aid. He married Lillie C. Schumm of St. Louis in 1899 and he is survived by his wife and three children, also one sister and one brother, both of Augusta, Ga. He was a member of Jacksonville camp, M. W. A., of the Jacksonville Nest of Owls and the International Association of Machinists of Jacksonville.

Rawling.

Mrs. Edwin J. Rawling who has been ill the past two weeks with pneumonia, died Thursday morning at 10:10 o'clock at the family residence, 718 East North street. Mrs. Rawling was a woman highly regarded in the community and through her kindness and lovable nature had won many true friends who will learn of her death with great sorrow, not only in Jacksonville but at her girlhood home in Nokomis, Ill.

Her maiden name was Annie Kellogg, daughter of Willard L. and Abigail Whitmore Kellogg and she was born March 17, 1872 in Nokomis, Ill. She was married April 4, 1900 to Edwin J. Rawling at Nokomis and they were the parents of two children, Helen, aged 12 years and Ruth, aged 5. She is survived by her husband, children, her father of Nokomis, also one sister and three brothers, Mrs. E. B. Pocock and Otis Kellogg of Nokomis and A. W. Kellogg and J. F. Kellogg of Jacksonville.

Funeral services will be held from the family residence here at 12:30 Friday afternoon, in charge of Rev. G. W. Flagg. The remains will be taken to Nokomis over the 2:08 Burlington train, accompanied by the relatives of this city. Following a brief funeral service there interment will be made in the Nokomis cemetery.

ORCHESTRA CONCERT BY DICKSON FAMILY ENTERTAINERS

Pleasant Program Presented Last Night at Grace M. E. Church.

An appreciative audience heard in Grace church last evening a highly enjoyable concert by the Dickson family consisting of the mother and three sons, the mother playing on the piano and the sons severally on clarinet, violin and cello. The vocal solo by Maurice Dickson was especially good and all the numbers were well received. The airs from the "Bohemian Girl" brought up many recollections. The program embraced a wide range of selections and all were artistically rendered. The following was the program:

March—"Curro Cuahares"—Metallo
Overture—"La Flandre"—Bouillon
Intermezzo—"Forget-Me-Not"—
Macbeth
Violin solo—Hungarian Dance No. 6
Brahms-Hermann
Ross Dickson.

Minuet from "Military Symphony"—Haydn
Miserere, from "Il Trovatore"—Verdi
Patrol—"The Blue and the Gray"—Dalby

Vocal solo—"The Singing in God's Acre"—Brackett
Maurice Dickson.

Operatic Selections—"Bohemian Girl"—Baife
Cello Solo Musette, "Air de Ballet"—Offenbach
John Dickson.
Gallop Militaire—"Attaque des Vans"—Bohm

MISS MARGUERITE BUTLER HEARD IN SPLENDID PROGRAM

Pleasant Large Audience in Voice Recital at Academy Hall Thursday Evening—Miss Alice Phillips Accompanist.

Miss Marguerite Butler was heard on a song recital Thursday night at recital hall, a large audience being present. She was assisted by a quartette composed of Carrie Dunlap, viola; Rachel Jerauld, piano; Dean Cochran, violin and Paul Morrison, cello. Miss Butler is a pupil of Mrs. Genevieve Clarke Wilson of the Conservatory of Music, and is a thorough musician. She possesses a voice of beautiful quality, wide range, which she uses with ease and artistic effect. She has splendid breath control and the songs of last evening afforded ample opportunity for her to display her ability at interpretation. Her voice has grown in every way and it was a pleasure to witness the appreciation of the audience of her work. She found wonderful support in the accompaniments of Miss Phillips. The selection by the quartet was marked by beautiful ensembles. The program was given as published in Thursday morning's Journal.

POULTRY ASSOCIATION IN ANNUAL BANQUET

PROFITABLE GATHERING HELD AT CENTRAL CHRISTIAN CHURCH.

Program of Addresses, Readings and Toasts Follows Excellent Luncheon—Poultry Legislation and "Poultry Fakers" Among Points Brought Out by Speakers.

Closer affiliation between fanciers of fine poultry, legislation which will help the industry along and shams which infest the chicken breeders' world were among the points of interest and profit elaborated by speakers Thursday evening at the annual banquet of the Morgan County Poultry association, held in the dining hall of Central Christian church at 6:30 o'clock. The program was varied by music and readings, to the sustained delight of all, and the entire event gave added testimony to the high quality of the local association banquets. Especial compliment is due to the ladies in charge for the well prepared repast.

On the committee in charge were D. T. Heimlich, J. C. Weber, Mrs. Berry, Mrs. J. W. Clary and Mrs. Heimlich, although various other members of the association as well as the ladies of the Christian church did much for the banquet's success.

The Banquet Program.
D. T. Heimlich, chairman of the evening, called upon the Rev. M. L. Pontius for the invocation and afterwards introduced as toastmaster, Ralph I. Dunlap, who filled the part in a manner acceptable. Following was the program:

Quartet selection—C. L. Mathis, J. Alex Campbell, J. Phillip Read and J. Roy Harney.

Reading, "Petit Larceny"—Miss Janette Powell.

The Rev. W. E. Spooner—Ad Libitum.

Orchestral music—Mr. and Mrs. W. P. Spillman.

"Poultry Banquets"—H. C. White of Greenfield.

Reading, "What Bill Said"—Prof. J. H. Rayhill.

"Some Poultry Fakers"—Dr. A. W. Foreman of White Hall.

Address—Judge D. T. Heimlich.

Address—Morton E. Thomas of Carrollton.

Reading, "The Wrong Man Baptized"—Prof. Rayhill.

Musical selection—Mr. and Mrs. Spillman.

Greene county men in attendance called to mind approaching shows and the mutual exchange plan which will be tried this year for the first time. At the Greene county exhibit in November and the Morgan county show in December a minimum of fifty birds will be exchanged, enlarging the opportunity of individual fanciers as well as improving the shows. The minimum will be doubled or tripled, if prophecies of association officers from the two counties work out.

The Huxton bill empowering town supervisors or county commissioners to make appropriations to one amount of \$250 for poultry association aid, was mentioned by Mr. White of Greenfield. This bill has passed the house and stands without apparent opposition in the senate and according to its sponsors will do much to increase interest in scientific poultry culture.

The Poultry Liar.
Condemnation of dishonesty in all phases of the business, was enunciated strongly by Dr. A. W. Foreman of White Hall in his address on "Some Poultry Fakers." Although introduced as the "man with the grouch," the veteran physician and chicken man, belied the epithet by the fairness of his allegations and the prevailing quality of his humor. Dishonest advertising in poultry journals, he scored especially, calling attention at the same time to some notable exceptions among the journals of the trade. Dr. Foreman was unsparing in criticism of the "twenty-one times a world's champion" incubator, "the world's greatest hatching machine," bogus egg-testers and moisture indicators, etc.

Mr. Heimlich, who next spoke, dwelt upon the pleasant side, pointing out that an institution with the standing of the national association, was taking all possible steps to eliminate fraud and trickery.

A tribute to W. A. Lippincott of Manhattan, Kan., was paid by the toastmaster in Mr. Heimlich's introduction. Mr. Dunlap told of Mr. Lippincott's first efforts under tutelage of Mr. Heimlich and of his subsequent rise to high position in the poultry world.
